FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME Island Pacific Seafood Market				DATE 7/18/2019	TIME IN 11:00 AM	TIME OUT 12:10 PM
ADDRESS 44060 Margarita Rd, Temecula, CA 92590				FACILITY DESCRIPTION Philhouse Hot Foods		
PERMIT HOLDER				EMAIL nathan@islandpacificmarket.co		Major Violations 0
PERMIT # PR0073182	EXPIRATION DATE 06/30/2019	SERVICE Follow-up inspection	REINSPECTION DATE Next Routine	FACILITY PHONE # (909)594-8080	PE 3619	DISTRICT 0041
INSPECTOR NAME Philip Sinclair					Points Deducted 2	

The conditions listed below correspond to violations of the California Health and Safety Code and/or Riverside County Ordinances and must be corrected as indicated by the enforcement officer. The Department of Environmental Health appreciates your cooperation.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge determined by Riverside County Ordinance 640.

Major / Minor Violations: Major Violations are those that pose an imminent risk to public health and warrant immediate closure of the food facility or immediate correction. Minor Violations are those violations that do not pose an imminent public health risk, but do warrant correction.

GRADE REPRESENTS THE FOLLOWING RANGES: A = 100-90 Passed inspection / meets minimum health standards. B = 89-80 Did not pass inspection / does not meet minimum health standards. C = 79-0 Failed inspection / conditions exist which may pose a potential or actual threat to public health and safety. The facility is required to display a grade card in a conspicuous place selected by the Enforcement Officer. The grade card shall not be concealed and can only be removed or relocated by the Enforcement Officer per County Ordinance 492 / County Code Section 8.40.020

○ In = In compliance + COS = Corrected on-site ○ N/O = Not observed ○ N/A = Not applicable ○ OUT = Out of compliance

FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME Island Pacific Seafood Market	DATE 7/18/2019	PERMIT # PR0073182
---	--------------------------	------------------------------

7. PROPER HOT & COLD HOLDING TEMPERATURES

POINTS

0

Inspector Comments: NOTE: Potentially hazardous foods shall be held at or below 41°F or at or above 135°F.

- Ensure that the steam table unit is looked at and repair if needed so that temperatures can be maintained. Provide copy of invoice once completed to psinclair@rivco.org. Manager stated that the grill area where skewers and such are placed will have grates removed from inside pans, secondary inserts placed in water as well primary pans submerged in water in steam table to maintain the area hot (pictures attached).

- Observed the sauce where the label states "Refrigerate after opening" stored in bulk container and in portioned cups inside the 2 door standing True reach in refrigeration unit (pictures attached).

Violation Description: Potentially hazardous food shall be held at or below 41°F / 45°F or at or above 135°F. Potentially hazardous food removed from proper holding temperature during preparation must be returned to proper temperature within 2 hours. Potentially hazardous food shall be received at proper temperature without evidence of temperature abuse. (113996, 113998, 114037)

28. FOOD SEPARATED AND PROTECTED FROM CONTAMINATION

POINTS

2

Inspector Comments: All food shall be stored, prepared, displayed or held so that it is protected from contamination. Discontinue double stacking containers of chopped onions in bowl on top of other cut vegetables in top portion of vegetable cold prep table. Provide approved hard cover to separate containers or use smaller inserts inside cold prep table as to be protected from contamination.

Violation Description: All food shall be separated and protected from contamination. (113984, 113986, 114060, 114067(a, d, e), 114069(a, d), 114073, 114077, 114089.1(c), 114143(c))

41. PLUMBING: PROPERLY INSTALLED, GOOD REPAIR

POINTS

0

Inspector Comments: NOTE: Discontinue use of the shaved ice machine until the proper slope has been provided. Ensure that hard plumbed line (PVC) is extended up the side cabinetry connecting to the ice shaver and that the slope is at least 1/4" per foot and that the drain line ends at least 1" above the floor grade. Email pictures to psinclair@rivco.org once this has been completed so that approval for use of the ice shaver can be given.

Violation Description: All plumbing shall be installed in compliance with local plumbing ordinances, shall be maintained so as to prevent any contamination, and shall be kept clean, fully operative, and in good repair. All food-related equipment drain lines must discharge through an approved indirect connection. Any hose used for conveying potable water shall be made from approved material and used for no other purpose. (114171, 114189.1, 114190, 114192(b,c), 114193, 114193.1, 114199, 114201, 114269)

FACILITY NAME Island Pacific Seafood Market	DATE 7/18/2019	PERMIT # PR0073182
--	-------------------	-----------------------

Overall Inspection Comments

Application and permit fee of \$199.00 collected at time of inspection via cash. OCR #A3817279 given at time of inspection. Revised Notice of Decision delivered at time of inspection. Facility approved to operate pending approval from all other agencies.

Re-inspection conducted to verify all previous violations noted on 07/17/2019 inspection report have been corrected. At this time, facility has met the minimum requirements as set for the by the California Health and Safety Code (A=98). "B" card removed. "A" card posted. Facility Closed sign removed.

Did you know that effective January 1, 2018, the California Health and Safety Code was amended to make it easier for food facilities to donate food? Please consider donating your excess food product to a local food bank, pantry, or soup kitchen. As a good faith food donor, you are protected from civil and criminal liability if the food product later causes harm to its recipient, unless the injury is a direct result of gross negligence or intentional misconduct in the preparation or handling of the donated food. See Section 171425 of the Civil Code and Sections 114432 to 114434 inclusive of the Health and Safety Code. For more information visit our website at www.rivcoeh.org.

REASONS FOR IMMEDIATE CLOSURE OF A FOOD FACILITY

Per California Health and Safety Code Section 114409 (a):
 "If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

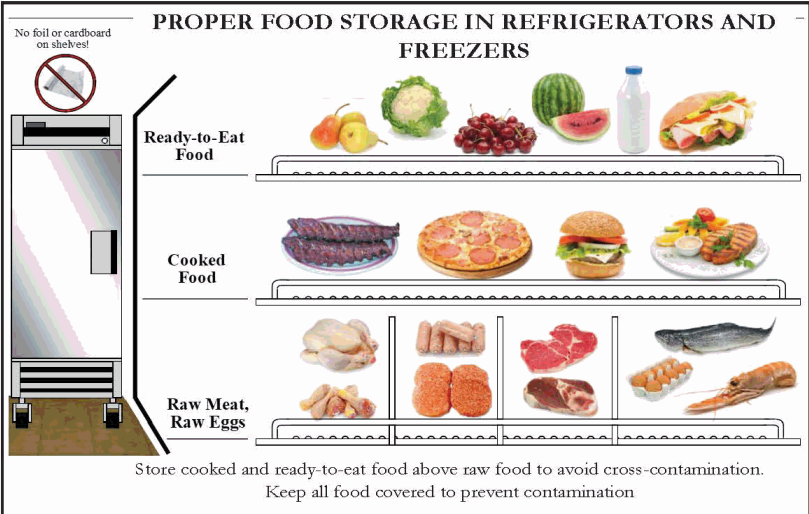

A food facility may be closed for any of the following reasons:

- Overflowing sewage (inside or outside the facility)
- No potable water
- No hot water
- No electricity
- Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, Per California Health and Safety Code Section 114411:

"The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

PROPER FOOD STORAGE IN REFRIGERATORS AND FREEZERS

No foil or cardboard on shelves!

Ready-to-Eat Food

Cooked Food

Raw Meat, Raw Eggs

Store cooked and ready-to-eat food above raw food to avoid cross-contamination. Keep all food covered to prevent contamination.

MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A THREE COMPARTMENT SINK

1. **SCRAPE**, clean, or soak items as necessary before washing.
2. **WASH** items in detergent and hot water of at least 100°F in the first sink.
3. **RINSE** items in clear water in the second sink.
4. **SANITIZE** by submerging each item in a sanitizing solution in the third sink. Use one of the following sanitizing methods:
 - 100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
 - 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
 - 25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
 - Water at a temperature of 171°F for a minimum of 30 seconds in solution
5. **AIR DRY** all items on the drain board.

PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapidly cooled.

TIME IS THE KEY FACTOR IN PROPER COOLING

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper timeframes.

PROPER FOOD THAWING METHODS

1. Under refrigeration
2. In a microwave oven on "defrost"
3. Submerged under cold running water in an approved preparation sink for no longer than 2 hours
4. As part of the cooking process

INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

							
135°F for 15 seconds	145°F for 15 seconds	145°F for 15 seconds	145°F for 15 seconds	155°F for 15 seconds	155°F for 15 seconds	165°F for 15 seconds	165°F for 15 seconds

Food temperature cannot be felt - use your probe thermometer!
