FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME Wendy's #8982				DATE 7/7/2021		TIME IN 7:50 AM		TIME OUT 8:15 AM	
ADDRESS 3450 W Florida Ave, Hemet, CA 92543				FACILITY DESCRIPTION Not Applicable					
PERMIT HOLDER Cotti Foods California Inc				EMAIL p_capriutti@hotmail.com				Major Violations 0	
PERMIT # PR0064677	EXPIRATION DATE 05/31/2023	SERVICE Follow-up inspection	REINSPECTION DATE 1/07/2022	FACILITY PHONE # (949)858-9191	PE 2621	DISTRICT 0016	INSPECTOR NAME Leslie Aranda		Points Deducted 1

The conditions listed below correspond to violations of the California Health and Safety Code and/or Riverside County Ordinances and must be corrected as indicated by the enforcement officer. The Department of Environmental Health appreciates your cooperation.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge determined by Riverside County Ordinance 640.

Major / Minor Violations: Major Violations are those that pose an imminent risk to public health and warrant immediate closure of the food facility or immediate correction. Minor Violations are those violations that do not pose an imminent public health risk, but do warrant correction.
GRADE REPRESENTS THE FOLLOWING RANGES: A = 100-90 Passed inspection / meets minimum health standards. B = 89-80 Did not pass inspection / does not meet minimum health standards. C = 79-0 Failed inspection / conditions exist which may pose a potential or actual threat to public health and safety. The facility is required to display a grade card in a conspicuous place selected by the Enforcement Officer. The grade card shall not be concealed and can only be removed or relocated by the Enforcement Officer per County Ordinance 492 / County Code Section 8.40.020

FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME
Wendy's #8982

DATE
7/7/2021

PERMIT #
PR0064677

7. PROPER HOT & COLD HOLDING TEMPERATURES

POINTS

0

Inspector Comments: As of the last inspection the day before, the walk-in cooler was holding between 52F-56F. Today, the walk-in cooler thermometer reading stated 36F and a package of meat was internally measured at 38F. The impound tag on the walk-in cooler has been lifted and it is approved for use by this Department. Ensure all potentially hazardous food is held at temperature control at 41F or below or 135F and above.

Violation Description: Potentially hazardous food shall be held at or below 41°F / 45°F or at or above 135°F. Potentially hazardous food removed from proper holding temperature during preparation must be returned to proper temperature within 2 hours. Potentially hazardous food shall be received at proper temperature without evidence of temperature abuse. (113996, 113998, 114037)

23. NO RODENTS, INSECTS, BIRDS, OR ANIMALS

POINTS

0

Inspector Comments: There were a numerous amount of flies observed within the facility the day before during the routine inspection. Per management, they had Ecolab come the day before and provide service to the facility to remove the flies within the facility. Management provided a receipt of the Ecolab service done the day before. For the re-inspection today, there were no flies observed within the facility. Ensure the facility is kept free of vermin and fly at all times.

Violation Description: Each food facility shall be kept free of vermin. Only approved animals, such as service animals or decorative fish in aquariums, are permitted inside a food facility. (114259.1, 114259.4, 114259.5)

24. VERMIN PROOFING, AIR CURTAINS, SELF-CLOSING DOORS

POINTS

1

Inspector Comments: Observed low air flow in the air curtains by the two drive thru windows. Management stated they will get in contact with maintenance to adjust the air curtain air flow and ensure it is adequately vermin proofing the facility. Ensure the food facility is maintained and operated to prevent the entrance and harborage of animals and vermin.

Violation Description: Each food facility shall be constructed, equipped, maintained, and operated to prevent the entrance and harborage of animals, including birds and vermin. (114259, 114259.2, 114259.3)

36. EQUIPMENT / UTENSILS PROPERLY INSTALLED, CLEAN;ADEQUATE CAPACITY

POINTS

0

Inspector Comments: NOTE: Observed the HI-C soda nozzle by the drive thru in need of cleaning (calcification on the soda nozzle). Management immediately directed an employee to correct on site. Ensure the calcification is removed and the soda nozzle is maintained in clean working order.

Violation Description: All utensils and equipment shall be clean and installed in an approved manner. Equipment type and quantity shall be adequate for the operation.(114115, 114130.3, 114139, 114153, 114163, 114165, 114167, 114169, 114175, 114180, 114182, 114257)

46. FLOORS, WALLS, AND CEILINGS: CLEAN

POINTS

0

Inspector Comments: NOTE: Observed the floor sink by the cold prep table with food debris. Management immediately directed an employee to correct on site. Remove the excess food debris and ensure the floor sink is cleaned regularly to prevent food debris buildup. All floors, walls, and ceilings shall be maintained clean.

Violation Description: Floors, walls, and ceilings shall be maintained clean. (114257, 114268.1)

Overall Inspection Comments

This was re-inspection done upon the management's request due to a downgrade yesterday. The facility has met the requirements of the California Health and Safety Code and re-scored at a 99. "B" placard has been removed and "A" placard has been placed above the front door. Ensure the above listed violation is corrected to help prevent fly entry. If there is ever a fly infestation, voluntarily close, clean and disinfect all affected contact surfaces, and eliminate the fly infestation. Contact this Department (951-766-2824) if that issue arises or if there is anything we may assist with. The facility has been re-opened.

--------------------------------	------------------	-----------------------

Did you know that effective January 1, 2018, the California Health and Safety Code was amended to make it easier for food facilities to donate food? Please consider donating your excess food product to a local food bank, pantry, or soup kitchen. As a good faith food donor, you are protected from civil and criminal liability if the food product later causes harm to its recipient, unless the injury is a direct result of gross negligence or intentional misconduct in the preparation or handling of the donated food. See Section 171425 of the Civil Code and Sections 114432 to 114434 inclusive of the Health and Safety Code. For more information visit our website at www.rivcoeh.org.

REASONS FOR IMMEDIATE CLOSURE OF A FOOD FACILITY

Per California Health and Safety Code Section 114409 (a):

"If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

A food facility may be closed for any of the following reasons:

- Overflowing sewage (inside or outside the facility)
- No potable water
- No hot water
- No electricity
- Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, Per California Health and Safety Code Section 114411:

"The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

No foil or cardboard
on shelves!

PROPER FOOD STORAGE IN REFRIGERATORS AND FREEZERS

Ready-to-Eat
Food

Cooked
Food

Raw Meat,
Raw Eggs

Store cooked and ready-to-eat food above raw food to avoid cross-contamination.
Keep all food covered to prevent contamination

MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A THREE COMPARTMENT SINK

1. **SCRAPE**, clean, or soak items as necessary before washing.
2. **WASH** items in detergent and hot water of at least 100°F in the first sink.
3. **RINSE** items in clear water in the second sink.
4. **SANITIZE** by submerging each item in a sanitizing solution in the third sink. Use one of the following sanitizing methods:
 - 100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
 - 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
 - 25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
 - Water at a temperature of 171°F for a minimum of 30 seconds in solution
5. **AIR DRY** all items on the drain board.

PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapidly cooled.

TIME IS THE KEY FACTOR IN PROPER COOLING

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper timeframes.

PROPER FOOD THAWING METHODS

1. Under refrigeration
2. In a microwave oven on "defrost"
3. Submerged under cold running water in an approved preparation sink for no longer than 2 hours
4. As part of the cooking process

INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

135°F for 15 seconds	145°F for 15 seconds	145°F for 15 seconds	145°F for 15 seconds	155°F for 15 seconds	155°F for 15 seconds	165°F for 15 seconds	165°F for 15 seconds

Food temperature cannot be felt - use your probe thermometer!
