FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME JENSEN'S FINEST FOODS - DELI				DATE 7/27/2020	TIME IN 9:45 AM	TIME OUT 10:10 AM
ADDRESS 73601 HWY 111, Palm Desert, CA 92260				FACILITY DESCRIPTION Not Applicable		
PERMIT HOLDER Gene Fulton				EMAIL ricardop@jensensfoods.com		Major Violations 1
PERMIT # PR0009332	EXPIRATION DATE 01/31/2021	SERVICE Routine inspection	REINSPECTION DATE Next Routine	FACILITY PHONE # Not Captured	PE 3616	DISTRICT 0032
					INSPECTOR NAME Reyes Escobar	Points Deducted 6

The conditions listed below correspond to violations of the California Health and Safety Code and/or Riverside County Ordinances and must be corrected as indicated by the enforcement officer. The Department of Environmental Health appreciates your cooperation.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge determined by Riverside County Ordinance 640.

Major / Minor Violations: Major Violations are those that pose an imminent risk to public health and warrant immediate closure of the food facility or immediate correction. Minor Violations are those violations that do not pose an imminent public health risk, but do warrant correction.

GRADE REPRESENTS THE FOLLOWING RANGES: A = 100-90 Passed inspection / meets minimum health standards. B = 89-80 Did not pass inspection / does not meet minimum health standards. C = 79-0 Failed inspection / conditions exist which may pose a potential or actual threat to public health and safety. The facility is required to display a grade card in a conspicuous place selected by the Enforcement Officer. The grade card shall not be concealed and can only be removed or relocated by the Enforcement Officer per County Ordinance 492 / County Code Section 8.40.020

○ In = In compliance + COS = Corrected on-site ○ N/O = Not observed ○ N/A = Not applicable ○ OUT = Out of compliance

FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME JENSEN'S FINEST FOODS - DELI	DATE 7/27/2020	PERMIT # PR0009332
---	-------------------	-----------------------

7. PROPER HOT & COLD HOLDING TEMPERATURES

POINTS

2

Inspector Comments: Observed a flip top cooler failing to hold potentially hazardous foods at approved temperatures. Measured red salsa, sour cream, and mayonaise holding at 50F. The refrigeration thermometer observed holding at 55-60F. The operator voluntarily discarded the food. Ensure that all cold potentially hazardous foods hold at least 41F or lower at all time to prevent a food-borne illness.

Violation Description: Potentially hazardous food shall be held at or below 41#F / 45#F or at or above 135#F. Potentially hazardous food removed from proper holding temperature during preparation must be returned to proper temperature within 2 hours. Potentially hazardous food shall be received at proper temperature without evidence of temperature abuse. (113996, 113998, 114037)

21. HOT AND COLD WATER AVAILABLE

⚠ CRITICAL ⚠

POINTS

4

Inspector Comments: Measured the hot water at 83F. Operator could not repair the hot water heater by the end of the inspection. Cease and desist all operations due to not having hot water for proper warewashing and proper hand washing. Closed sign posted. Ensure that the facility repairs the hot water heater and is able to reach at least the minimum 100F to reopen. Hot water shall be able to reach and maintain a temperature of at least 120F. Please email reescoba@rivco.org or call 760-863-8287 for a reinspection.

Violation Description: An adequate, protected, pressurized, potable supply of hot water and cold water shall be provided at all times. Hot water of at least 120°F must be provided for facilities with unpackaged food or packaged potentially hazardous food. Handwashing facilities shall be equipped to provide warm water for at least 15 seconds. (113953(c), 114189, 114192 (a,d), 114192.1, 114195)

---	-------------------	-----------------------

Overall Inspection Comments

Facility is closed due to not having hot water. Operator will email pictures of the hot water reaching at least 100F to reopen. The facility must ensure that the water heater is repaired and reaches 120F.

This was a routine inspection conducted during the Covid-19 pandemic.
This facility appears to follow industry guidance, please continue to follow all local and state orders regarding Covid-19.

For resources and updates, please see the following websites:
State: <https://covid19.ca.gov>
CDC: <https://www.cdc.gov/coronavirus/2019-nCoV/index.html>
County public health: <https://www.rivcoph.org/coronavirus>

Did you know that effective January 1, 2018, the California Health and Safety Code was amended to make it easier for food facilities to donate food? Please consider donating your excess food product to a local food bank, pantry, or soup kitchen. As a good faith food donor, you are protected from civil and criminal liability if the food product later causes harm to its recipient, unless the injury is a direct result of gross negligence or intentional misconduct in the preparation or handling of the donated food. See Section 171425 of the Civil Code and Sections 114432 to 114434 inclusive of the Health and Safety Code. For more information visit our website at www.rivcoeh.org.

REASONS FOR IMMEDIATE CLOSURE OF A FOOD FACILITY

Per California Health and Safety Code Section 114409 (a):
 "If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

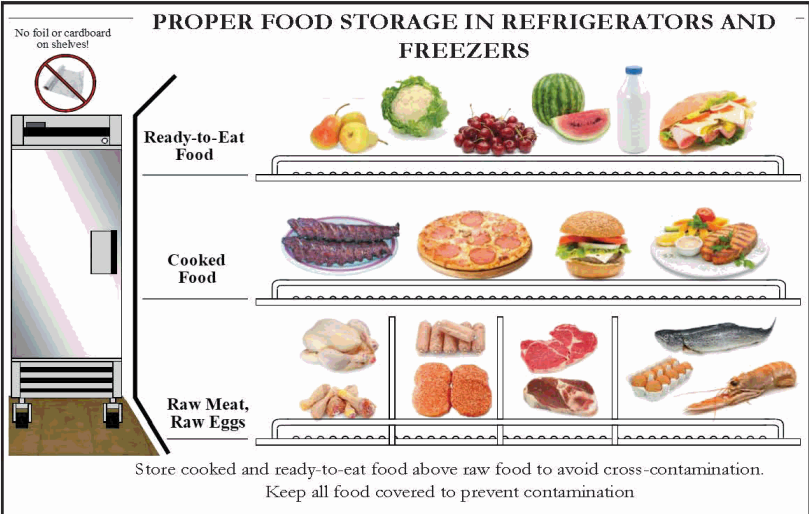

A food facility may be closed for any of the following reasons:

- Overflowing sewage (inside or outside the facility)
- No potable water
- No hot water
- No electricity
- Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, Per California Health and Safety Code Section 114411:

"The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

PROPER FOOD STORAGE IN REFRIGERATORS AND FREEZERS

No foil or cardboard on shelves!

Ready-to-Eat Food

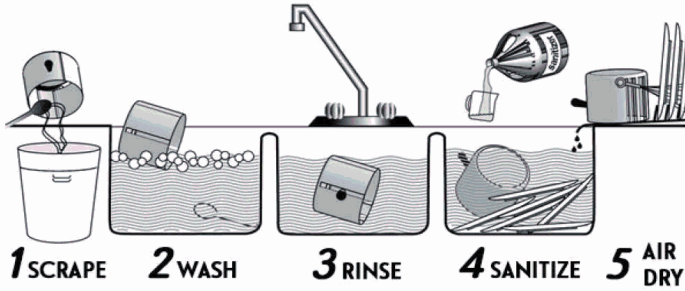

Cooked Food

Raw Meat, Raw Eggs

Store cooked and ready-to-eat food above raw food to avoid cross-contamination. Keep all food covered to prevent contamination.

MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A THREE COMPARTMENT SINK

1. **SCRAPE**, clean, or soak items as necessary before washing.
2. **WASH** items in detergent and hot water of at least 100°F in the first sink.
3. **RINSE** items in clear water in the second sink.
4. **SANITIZE** by submerging each item in a sanitizing solution in the third sink. Use one of the following sanitizing methods:
 - 100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
 - 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
 - 25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
 - Water at a temperature of 171°F for a minimum of 30 seconds in solution
5. **AIR DRY** all items on the drain board.

PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapidly cooled.

TIME IS THE KEY FACTOR IN PROPER COOLING

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper timeframes.

PROPER FOOD THAWING METHODS

1. Under refrigeration
2. In a microwave oven on "defrost"
3. Submerged under cold running water in an approved preparation sink for no longer than 2 hours
4. As part of the cooking process

INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

							
135°F for 15 seconds	145°F for 15 seconds	145°F for 15 seconds	145°F for 15 seconds	155°F for 15 seconds	155°F for 15 seconds	165°F for 15 seconds	165°F for 15 seconds

Food temperature cannot be felt - use your probe thermometer!
