The conditions listed below correspond to violations of the California Health and Safety Code and/or Riverside County Ordinances and must be corrected as indicated by the enforcement officer. The Department of Environmental Health appreciates your cooperation.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge determined by Riverside County Ordinance 640.

Major / Minor Violations: Major Violations are those that pose an imminent risk to public health and warrant immediate closure of the food facility or immediate correction. Minor Violations are those violations that do not pose an imminent public health risk, but do warrant correction.

GRADE REPRESENTS THE FOLLOWING RANGES: A = 100-90 Passed inspection / meets minimum health standards. B = 89-80 Did not pass inspection / does not meet minimum health standards. C = 79-0 Failed inspection / conditions exist which may pose a potential or actual threat to public health and safety. The facility is required to display a grade card in a conspicuous place selected by the Enforcement Officer. The grade card shall not be concealed and can only be removed or relocated by the Enforcement Officer per County Ordinance 492 / County Code Section 8.40.020

FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME		PERMIT#
La Michoacana Ice Cream	10/14/2022	PR0081861

1. FOOD SAFETY CERTIFICATION

POINTS

Inspector Comments: Observed the facility to not have a food manager certificate.

Food facilities that prepare, handle or serve unpackaged potentially hazardous food, shall have an employee who has passed an approved food safety certification examination. Maintain at least one valid food manager certification on-site.

NOTE: each facility under separate permits must have one employee at EACH facility that has passed the food manager certification exam. Having a food manager certificate at the store front does not cover the factory area as they are permitted separately.

Violation Description: Food facilities that prepare, handle or serve non-prepackaged potentially hazardous food, shall have an employee who has passed an approved food safety certification examination. Food safety certificate must be maintained at the food facility and made available for inspection. (113947.1 - 113947.5)

14. FOOD CONTACT SURFACES; CLEAN AND SANITIZED

POINTS

4

Inspector Comments: Observed an employee use a scrap on an ice cream, the proceed to rinse the utensil and hang it amongst other clean utensils above the 3-comp sink. In-use food-contact equipment or utensils used for potentially hazardous foods shall be properly washed, rinsed, and sanitized. Employee was directed to properly wash, rinse and sanitize tools prior to placing them amongst clean utensils.

Violation Description: All food contact surfaces of utensils and equipment shall be properly cleaned and sanitized. Food contact surfaces shall be clean to the sight and touch, no accumulation of dust, dirt, food residue, and other debris. (114097, 114099.1, 114099.2, 114099.4, 114099.6, 114099.7, 114101(b-d), 114105, 114109, 114111, 114113, 114115, 114117, 114118, 114123, 114125(b), 114130.2, 114130.5, 114141)

21. HOT AND COLD WATER AVAILABLE

POINTS

Inspector Comments: Observed the 3-comp sink to reach a maximum of 118F.

Provide hot water at a minimum of 120°F.

Violation Description: An adequate, protected, pressurized, potable supply of hot water and cold water shall be provided at all times. Hot water of at least 120°F must be provided for facilities with unpackaged food or packaged potentially hazardous food. Handwashing facilities shall be equipped to provide warm water for at least 15 seconds. (113953(c), 114189, 114192 (a,d), 114192.1, 114195)

23. NO RODENTS, INSECTS, BIRDS, OR ANIMALS

POINTS

2

Inspector Comments: Observed multiple dead baby cockroaches in sticky traps throughout the facility (at the restroom and at the water heater/dry storage area). No further evidence of infestation was observed at time of inspection. Provide pest control receipt to MirRamirez@Rivco.org within one week (10/21/22). Maintain the facility free of any pest or vermin at all times.

Violation Description: Each food facility shall be kept free of vermin. Only approved animals, such as service animals or decorative fish in aquariums, are permitted inside a food facility. (114259.1, 114259.4, 114259.5)

24. VERMIN PROOFING, AIR CURTAINS, SELF-CLOSING DOORS

POINTS

Inspector Comments: Observed the air curtain at the back delivery door to be nonfunctional.

Air curtains shall operate in conjunction with the microswitch to turn on when the door is open and turn off when the door closes.

Observed the weather stripping at the bottom of the back delivery door to have gaps. Replace the weather stripping in an approved manner. Exterior doors shall be self-closing, without gaps or openings, and maintained closed when not actively in use to prevent vermin entry.

Violation Description: Each food facility shall be constructed, equipped, maintained, and operated to prevent the entrance and harborage of animals, including birds and vermin. (114259, 114259.2, 114259.3)

28. FOOD SEPARATED AND PROTECTED FROM CONTAMINATION

POINTS

Inspector Comments: Observed scoops stored in the bulk whole walnut, chopped walnut and shredded coconut containers to have the scoop handles in direct contact with the foods. Store all scoops with the handles up out of the food to prevent contamination.

Observed the facility to reuse single use bulk "sour cream" containers to store other food items. Discontinue reusing single use containers to prevent contamination and replace with approved food-grade containers.

Violation Description: All food shall be separated and protected from contamination. (113984, 113986, 114060, 114067(a, d, e), 114069(a, d), 114073, 114077, 114089.1(c), 114143(c))

www.rivcoeh.org

FOOD ESTABLISHMENT INSPECTION FORM

		PERMIT#
La Michoacana Ice Cream	10/14/2022	PR0081861

30. TOXIC SUBSTANCES PROPERLY IDENTIFIED, STORED, USED

Inspector Comments: Observed a can of "Raid Max Ant and Roach" spray stored on the chemical shelf near the dry storage. Only pesticides specifically approved for use in a food facility may be used if in accordance with the manufacturer's instructions.

Observed one unlabeled spray bottle with clear liquid stored on the popsicle sealer under the hood.

All chemicals and poisonous substances shall be stored separate from food and food-related items and properly labeled to prevent contamination.

Violation Description: All poisonous substances, detergents, bleaches, and cleaning compounds shall be stored in an approved manner which prevents contamination of food or food-contact surfaces. All poisonous or toxic substances shall be properly labeled. (114254, 114254.1, 114254.2)

31. ADEQUATE FOOD STORAGE; FOOD STORAGE CONTAINERS IDENTIFIED

Inspector Comments: Observed multiple food items stored directly on the floor of the walk in freezer.

Observed a bulk container stored on the floor of the walk in cooler near the front of the store.

Maintain all food items stored at least 6 inches up off the floor on approved shelving to prevent contamination.

Violation Description: Food shall be stored in approved containers and labeled as to contents. Food shall be stored at least 6" above the floor on approved shelving. (114047, 114049, 114051, 114053, 114055, 114067(h), 114069(b))

34. UTENSILS AND EQUIPMENT APPROVED, GOOD REPAIR

POINTS

Inspector Comments: Observed there to be a hole in the ceiling tile at the small hallway between the kitchen area and the back dry storage area. Replace the ceiling tile in an approved manner.

Observed the gaskets at the white deep chest freezer near the facility's front entrance to be torn. Replace the gaskets in an approved manner.

Remove, replace or repair the excess coolers at the front of the facility to prevent vermin or pest harborage. Clean the interior of the coolers prior to any use.

Violation Description: All utensils and equipment shall be approved and in good repair. (114130, 114130.1-114130.6, 114132, 114133, 114137, 114175, 114177, 114257)

36. EQUIPMENT / UTENSILS PROPERLY INSTALLED, CLEAN; ADEQUATE CAPACITY

POINTS

Inspector Comments: All equipment and utensils shall be kept clean and free of an accumulation of dust, dirt, food residue, and other debris.

Clean and maintain the following:

- The ice build up along the door frame of the walk in freezer.
- The debris on the floor of the walk in freezer

Violation Description: All utensils and equipment shall be clean and installed in an approved manner. Equipment type and quantity shall be adequate for the operation.(114115, 114130.3, 114139, 114153, 114163, 114165, 114167, 114169, 114175, 114180, 114182, 114257)

40. WIPING CLOTHS: PROPERLY USED AND STORED

Inspector Comments: Observed multiple damp, soiled wiping cloths stored on prep surfaces throughout the facility. Maintain all damp, soiled wiping cloths fully submerged in 100ppm chlorine solution or 200ppm quaternary ammonia solution at all times in between uses to prevent contamination.

Violation Description: Wiping cloths used to clean food spills shall be used only once, unless stored in an approved concentration of sanitizer solution and laundered daily. (114135, 114185.1, 114185.3(d-e))

44. PREMISES; PERSONAL ITEM STORAGE AND CLEANING ITEM STORAGE

Inspector Comments: Obsevred multiple personal items (i.e., phones, walkie talkies, chargers, etc.) stored directly on top of the bulk walnut containers.

Store all personal items in lockers or other approved designated area.

Violation Description: Lockers or another approved area for personal belongings shall be provided. The premises of each food facility shall be kept clean and free of litter and items that are unnecessary to the operation or maintenance of the facility. At least one janitorial sink with hot and cold running water shall be provided. Cleaning supplies and equipment shall be stored separate from food and food-related areas. Mops shall be stored in such a way that allows air-drying. (114123, 114256, 114256.1, 114256.2, 114256.4, 114279, 114281, 114282)

Overall Inspection Comments

At this time this facility had failed to meet the minimum health standards of the California Health and Safety Code (81 = B). A reinspection has been set for one week (08/21/22). Ensure all violations listed on this report are corrected by this date in order to be re-scored. "B" card posted, do not move, remove or block placards to avoid penalty. "A" card removed. "B" card must remain posted until removed by an employee of this Department. If you have any questions contact M. Ramirez at (951) 766-2824.

Did you know that effective January 1, 2018, the California Health and Safety Code was amended to make it easier for food facilities to donate food? Please consider donating your excess food product to a local food bank, pantry, or soup kitchen. As a good faith food donor, you are protected from civil and criminal liability if the food product later causes harm to its recipient, unless the injury is a direct result of gross negligence or intentional misconduct in the preparation or handling of the donated food. See Section 171425 of the Civil Code and Sections 114432 to 114434 inclusive of the Health and Safety Code. For more information visit our website at www.rivcoeh.org.

REASONS FOR IMMEDIATE CLOSURE OF A FOOD FACILITY

Per California Health and Safety Code Section 114409 (a):

"If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

A food facility may be closed for any of the following reasons:

- · Overflowing sewage (inside or outside the facility)
- · No potable water
- · No hot water
- · No electricity
- · Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, Per California Heath and Safety Code Section 114411:

"The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

Store cooked and ready-to-eat food above raw food to avoid cross-contamination.

Keep all food covered to prevent contamination

MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A THREE COMPARTMENT SINK

- 1. SCRAPE, clean, or soak items as necessary before washing.
- 2. WASH items in detergent and hot water of at least 100°F in the first sink.
- 3. RINSE items in clear water in the second sink
- 4. SANITIZE by submerging each item in a sanitizing solution in the third sink. Use one of the following sanitizing methods:
 - \bullet 100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
 - 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
 - 25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
 - Water at a temperature of 171°F for a minimum of 30 seconds in solution

5. AIR DRY all items on the drain board.

PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapodly cooled.

TIME IS THE KEY FACTOR IN PROPER COOLING

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- · Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper timeframes

PROPER FOOD THAWING METHODS

- Under refrigeration
- In a microwave oven on "defrost"
 - Submerged under cold running water in an approved preparation sink for no longer than 2 hours
 - As part of the cooking process

INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

Food temperature cannot be felt - use your probe thermometer!
