FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME So Cal Tacos and Beer				DATE 9/5/2019	TIME IN 2:40 PM	TIME OUT 3:50 PM
ADDRESS 39400 Murrieta Hot Springs Rd #106, Murrieta, CA 92563				FACILITY DESCRIPTION Not Applicable		
PERMIT HOLDER Juan Carlos Franco				EMAIL SoCaTacosandBeer@gmail.com		Major Violations 0
PERMIT # PR0071607	EXPIRATION DATE 10/31/2019	SERVICE Follow-up inspection	REINSPECTION DATE Next Routine	FACILITY PHONE # (619)822-0178	PE 3620	DISTRICT 0043
					INSPECTOR NAME Diana Garcia	Points Deducted 4

The conditions listed below correspond to violations of the California Health and Safety Code and/or Riverside County Ordinances and must be corrected as indicated by the enforcement officer. The Department of Environmental Health appreciates your cooperation.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge determined by Riverside County Ordinance 640.

Major / Minor Violations: Major Violations are those that pose an imminent risk to public health and warrant immediate closure of the food facility or immediate correction. Minor Violations are those violations that do not pose an imminent public health risk, but do warrant correction.

GRADE REPRESENTS THE FOLLOWING RANGES: A = 100-90 Passed inspection / meets minimum health standards. B = 89-80 Did not pass inspection / does not meet minimum health standards. C = 79-0 Failed inspection / conditions exist which may pose a potential or actual threat to public health and safety. The facility is required to display a grade card in a conspicuous place selected by the Enforcement Officer. The grade card shall not be concealed and can only be removed or relocated by the Enforcement Officer per County Ordinance 492 / County Code Section 8.40.020

○ In = In compliance + COS = Corrected on-site ○ N/O = Not observed ○ N/A = Not applicable ○ OUT = Out of compliance

FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME So Cal Tacos and Beer	DATE 9/5/2019	PERMIT # PR0071607
--	------------------	-----------------------

23. NO RODENTS, INSECTS, BIRDS, OR ANIMALS

POINTS

2

Inspector Comments:

-Observed a few flies throughout the facility. Operator receives consistent pest control services from Terminix. Since the last inspection the facility has attempted to add a secondary fly light, repaired the back door to be self closing and washed the refuse floor. Continue to power wash the refuse floor since the floor is still somewhat soiled. Clean the area as often as necessary. In addition, the recycling bin is full and recyclables are overflowing. Schedule sufficient pick ups to ensure the lids to the recycling bins can be kept closed and/or add additional bins to the area.

**Remove the flies from the facility. Protect all food by maintaining it covered and ensure wiping cloths in sanitizer solution are provided at the cook line to quickly sanitize any affected surfaces such as the prep table used to assemble food. Discard any food that may become contaminated. Properly bag all trash and close the refuse bins.

Violation Description: Each food facility shall be kept free of vermin. Only approved animals, such as service animals or decorative fish in aquariums, are permitted inside a food facility. (114259.1, 114259.4, 114259.5)

34. UTENSILS AND EQUIPMENT APPROVED, GOOD REPAIR

POINTS

1

Inspector Comments:

-Operator has ordered the gaskets for the reach in freezer.
-Replace the non functional light at the hood.

Violation Description: All utensils and equipment shall be approved and in good repair. (114130, 114130.1-114130.6, 114132, 114133, 114137, 114175, 114177, 114257)

36. EQUIPMENT / UTENSILS PROPERLY INSTALLED, CLEAN;ADEQUATE CAPACITY

POINTS

0

Inspector Comments:

NOTE: Continue to clean and maintain underneath the grill and the floor under the soda machine. Place tile under the soda machine so that the floor can be kept clean and free of debris.

Violation Description: All utensils and equipment shall be clean and installed in an approved manner. Equipment type and quantity shall be adequate for the operation.(114115, 114130.3, 114139, 114153, 114163, 114165, 114167, 114169, 114175, 114180, 114182, 114257)

40. WIPING CLOTHS: PROPERLY USED AND STORED

POINTS

1

Inspector Comments:

-The sanitizer at the wiping cloth bucket was low at 50 ppm of chlorine. Operator added more chlorine and inspector verified the sanitizer was at 100 ppm. Use the chlorine test strips to ensure the sanitizer is kept at 100 ppm.

Violation Description: Wiping cloths used to clean food spills shall be used only once, unless stored in an approved concentration of sanitizer solution and laundered daily. (114135, 114185.1, 114185.3(d-e))

41. PLUMBING: PROPERLY INSTALLED, GOOD REPAIR

POINTS

0

Inspector Comments:

NOTE: Cut or raise the pipe below the 3 compartment sink to be one inch over the floor rim.

Violation Description: All plumbing shall be installed in compliance with local plumbing ordinances, shall be maintained so as to prevent any contamination, and shall be kept clean, fully operative, and in good repair. All food-related equipment drain lines must discharge through an approved indirect connection. Any hose used for conveying potable water shall be made from approved material and used for no other purpose. (114171, 114189.1, 114190, 114192(b,c), 114193, 114193.1, 114199, 114201, 114269)

FACILITY NAME So Cal Tacos and Beer	DATE 9/5/2019	PERMIT # PR0071607
--	------------------	-----------------------

Overall Inspection Comments

Facility was reinspected due to a downgrade on 9/4/2019. All previous violations have been corrected except those listed on this report. Facility has met the minimum requirements of the California Health and Safety Code; "B" grade card removed, "A" card posted.

Did you know that effective January 1, 2018, the California Health and Safety Code was amended to make it easier for food facilities to donate food? Please consider donating your excess food product to a local food bank, pantry, or soup kitchen. As a good faith food donor, you are protected from civil and criminal liability if the food product later causes harm to its recipient, unless the injury is a direct result of gross negligence or intentional misconduct in the preparation or handling of the donated food. See Section 171425 of the Civil Code and Sections 114432 to 114434 inclusive of the Health and Safety Code. For more information visit our website at www.rivcoeh.org.

REASONS FOR IMMEDIATE CLOSURE OF A FOOD FACILITY

Per California Health and Safety Code Section 114409 (a):
 "If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

A food facility may be closed for any of the following reasons:

- Overflowing sewage (inside or outside the facility)
- No potable water
- No hot water
- No electricity
- Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, Per California Health and Safety Code Section 114411:

"The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

PROPER FOOD STORAGE IN REFRIGERATORS AND FREEZERS

Ready-to-Eat Food

Cooked Food

Raw Meat, Raw Eggs

Store cooked and ready-to-eat food above raw food to avoid cross-contamination. Keep all food covered to prevent contamination.

MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A THREE COMPARTMENT SINK

1. **SCRAPE**, clean, or soak items as necessary before washing.
2. **WASH** items in detergent and hot water of at least 100°F in the first sink.
3. **RINSE** items in clear water in the second sink.
4. **SANITIZE** by submerging each item in a sanitizing solution in the third sink. Use one of the following sanitizing methods:
 - 100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
 - 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
 - 25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
 - Water at a temperature of 171°F for a minimum of 30 seconds in solution
5. **AIR DRY** all items on the drain board.

PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapidly cooled.

TIME IS THE KEY FACTOR IN PROPER COOLING

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper timeframes.

PROPER FOOD THAWING METHODS

1. Under refrigeration
2. In a microwave oven on "defrost"
3. Submerged under cold running water in an approved preparation sink for no longer than 2 hours
4. As part of the cooking process

INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

135°F for 15 seconds	145°F for 15 seconds	145°F for 15 seconds	145°F for 15 seconds	155°F for 15 seconds	155°F for 15 seconds	165°F for 15 seconds	165°F for 15 seconds

Food temperature cannot be felt - use your probe thermometer!
