**FOOD ESTABLISHMENT INSPECTION FORM**

FACILITY NAME <b>MCK Fly High Express</b>				DATE 5/3/2021	TIME IN 10:00 AM	TIME OUT 11:15 AM
ADDRESS 19980 Grand Ave Ste.C, Lake Elsinore, CA 92530				FACILITY DESCRIPTION Not Applicable		
PERMIT HOLDER Moei Singjam				EMAIL singjam94@gmail.com		Major Violations 0
PERMIT # PR0081239	EXPIRATION DATE 03/31/2022	SERVICE Follow-up inspection	REINSPECTION DATE Next Routine	FACILITY PHONE # (951)678-8881	PE 3620	DISTRICT 0044
				INSPECTOR NAME Antonio Islas	Points Deducted 0	

The conditions listed below correspond to violations of the California Health and Safety Code and/or Riverside County Ordinances and must be corrected as indicated by the enforcement officer. The Department of Environmental Health appreciates your cooperation.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge determined by Riverside County Ordinance 640.

**Major / Minor Violations:** Major Violations are those that pose an imminent risk to public health and warrant immediate closure of the food facility or immediate correction. Minor Violations are those violations that do not pose an imminent public health risk, but do warrant correction.

GRADE REPRESENTS THE FOLLOWING RANGES: A = 100-90 Passed inspection / meets minimum health standards. B = 89-80 Did not pass inspection / does not meet minimum health standards. C = 79-0 Failed inspection / conditions exist which may pose a potential or actual threat to public health and safety. The facility is required to display a grade card in a conspicuous place selected by the Enforcement Officer. The grade card shall not be concealed and can only be removed or relocated by the Enforcement Officer per County Ordinance 492 / County Code Section 8.40.020

○ In = In compliance     + COS = Corrected on-site     ○ N/O = Not observed     ○ N/A = Not applicable     ○ OUT = Out of compliance

FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME MCK Fly High Express	DATE 5/3/2021	PERMIT # PR0081239
---------------------------------------	------------------	-----------------------

1. FOOD SAFETY CERTIFICATION

POINTS

0

**Inspector Comments:** Ensure an approved Food Manager Certificate is readily available for review by the next routine inspection.

**Violation Description:** Food facilities that prepare, handle or serve non-prepackaged potentially hazardous food, shall have an employee who has passed an approved food safety certification examination. Food safety certificate must be maintained at the food facility and made available for inspection. (113947.1 - 113947.5)

84. COVID 19 - FOLLOWING STATE OF CALIFORNIA GUIDELINES

POINTS

0

**Inspector Comments:** Observed general Covid-19 industry guidelines in place.

---------------------------------------	------------------	-----------------------

**Overall Inspection Comments**

This re-inspection was conducted at operator request due to the downgrade and closure of the facility on 04/29/21. At this time, all violations from the previous inspection report have been corrected except for the violation listed above. Facility re-scored from 82=B to 100=A. B placard and closure sign removed. A placard posted and facility approved to reopen. A pest control technician was present at the time of inspection and documentation was provided showing service conducted on 04/30/21 as well as follow-up. Reviewed pest control measures and facility sanitation with the facility owner and manager. No signs of rodent activity observed at this time. Significant facility cleaning/sanitizing was observed at this time. Continue to monitor the kitchen for any rodent activity and take approved action as necessary. Remaining items from the recent on-site inspection report were reviewed this date and will be evaluated for correction at the next routine inspection.

**Did you know** that effective January 1, 2018, the California Health and Safety Code was amended to make it easier for food facilities to donate food? Please consider donating your excess food product to a local food bank, pantry, or soup kitchen. As a good faith food donor, you are protected from civil and criminal liability if the food product later causes harm to its recipient, unless the injury is a direct result of gross negligence or intentional misconduct in the preparation or handling of the donated food. See Section 171425 of the Civil Code and Sections 114432 to 114434 inclusive of the Health and Safety Code. For more information visit our website at [www.rivcoeh.org](http://www.rivcoeh.org).

## REASONS FOR IMMEDIATE CLOSURE OF A FOOD FACILITY

Per California Health and Safety Code Section 114409 (a):  
 "If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

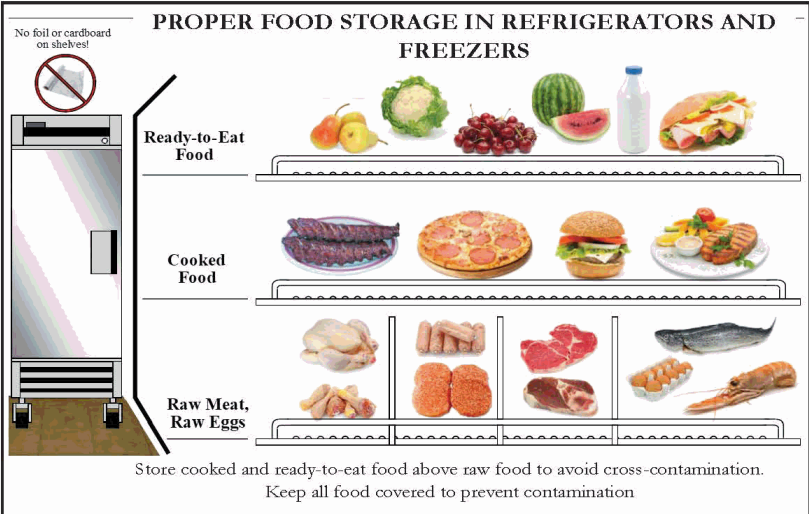

A food facility may be closed for any of the following reasons:

- Overflowing sewage (inside or outside the facility)
- No potable water
- No hot water
- No electricity
- Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, Per California Health and Safety Code Section 114411:

"The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

### PROPER FOOD STORAGE IN REFRIGERATORS AND FREEZERS

No foil or cardboard on shelves!

Ready-to-Eat Food

Cooked Food

Raw Meat, Raw Eggs

Store cooked and ready-to-eat food above raw food to avoid cross-contamination. Keep all food covered to prevent contamination.

## MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A THREE COMPARTMENT SINK

1. **SCRAPE**, clean, or soak items as necessary before washing.
2. **WASH** items in detergent and hot water of at least 100°F in the first sink.
3. **RINSE** items in clear water in the second sink.
4. **SANITIZE** by submerging each item in a sanitizing solution in the third sink. Use one of the following sanitizing methods:
  - 100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
  - 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
  - 25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
  - Water at a temperature of 171°F for a minimum of 30 seconds in solution
5. **AIR DRY** all items on the drain board.

## PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapidly cooled.

### TIME IS THE KEY FACTOR IN PROPER COOLING

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper timeframes.

## PROPER FOOD THAWING METHODS

1. Under refrigeration
2. In a microwave oven on "defrost"
3. Submerged under cold running water in an approved preparation sink for no longer than 2 hours
4. As part of the cooking process

## INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

							
<b>135°F</b> for 15 seconds	<b>145°F</b> for 15 seconds	<b>145°F</b> for 15 seconds	<b>145°F</b> for 15 seconds	<b>155°F</b> for 15 seconds	<b>155°F</b> for 15 seconds	<b>165°F</b> for 15 seconds	<b>165°F</b> for 15 seconds

Food temperature cannot be felt - use your probe thermometer!
