FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME <b>Organic Junkie-OOB</b>				DATE 5/18/2021		TIME IN 10:45 AM		TIME OUT 11:45 AM	
ADDRESS 420 N Main St #109, Corona, CA 92880				FACILITY DESCRIPTION oob per cos					
PERMIT HOLDER Christina Bohannon				EMAIL christinacuriel@yahoo.com				Major Violations 0	
PERMIT # PR0076116	EXPIRATION DATE 11/30/2022	SERVICE Follow-up inspection	REINSPECTION DATE 9/18/2021	FACILITY PHONE # (951)475-7578	PE 3620	DISTRICT 0054	INSPECTOR NAME Jillian Van Stockum		Points Deducted 5

The conditions listed below correspond to violations of the California Health and Safety Code and/or Riverside County Ordinances and must be corrected as indicated by the enforcement officer. The Department of Environmental Health appreciates your cooperation.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge determined by Riverside County Ordinance 640.

**Major / Minor Violations:** Major Violations are those that pose an imminent risk to public health and warrant immediate closure of the food facility or immediate correction. Minor Violations are those violations that do not pose an imminent public health risk, but do warrant correction.

GRADE REPRESENTS THE FOLLOWING RANGES: A = 100-90 Passed inspection / meets minimum health standards. B = 89-80 Did not pass inspection / does not meet minimum health standards. C = 79-0 Failed inspection / conditions exist which may pose a potential or actual threat to public health and safety. The facility is required to display a grade card in a conspicuous place selected by the Enforcement Officer. The grade card shall not be concealed and can only be removed or relocated by the Enforcement Officer per County Ordinance 492 / County Code Section 8.40.020

FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME Organic Junkie-OOB	DATE 5/18/2021	PERMIT # PR0076116
-------------------------------------	-------------------	-----------------------

28. FOOD SEPARATED AND PROTECTED FROM CONTAMINATION

POINTS

2

Inspector Comments:

Observed an opened bulk bag of tortilla chips stored on the dry storage shelving rack adjacent to the warewash area. After the food product has been opened, transfer the product into durable, washable, and cleanable working containers with lids.

**Violation Description:** All food shall be separated and protected from contamination. (113984, 113986, 114060, 114067(a, d, e), 114069(a, d), 114073, 114077, 114089.1(c), 114143(c))

34. UTENSILS AND EQUIPMENT APPROVED, GOOD REPAIR

POINTS

1

Inspector Comments:

1) Observed the left door gasket of the 2-door upright "True" cooler to be torn. Replace the gasket and maintain in good repair. The contractor to assess and order the new gasket arrived on site at the conclusion of the inspection, advising the gasket will be ordered and installed within the next two weeks.

2) Observed soiled cardboard folded and wedged between the food bin and side wall of the cold-top prep cooler. Remove the cardboard. Discontinue re-using unapproved materials (i.e. single-use cans, styrofoam cups, crates, cardboard boxes, plastic grocery bags). Equipment surfaces must be smooth, non-absorbent, durable, and easily cleanable. (i.e. raw wood, surfaces with gaps or crevices, etc.). PIC removed the cardboard and discarded into the trash.

**Violation Description:** All utensils and equipment shall be approved and in good repair. (114130, 114130.1-114130.6, 114132, 114133, 114137, 114175, 114177, 114257)

36. EQUIPMENT / UTENSILS PROPERLY INSTALLED, CLEAN; ADEQUATE CAPACITY

POINTS

0

Inspector Comments:

NOTE: Observed accumulation of mineral buildup and mold growth on the interior walls of the ice machine. All equipment and utensils shall be kept clean and free of an accumulation of dust, dirt, food residue, and other debris.

**Violation Description:** All utensils and equipment shall be clean and installed in an approved manner. Equipment type and quantity shall be adequate for the operation. (114115, 114130.3, 114139, 114153, 114163, 114165, 114167, 114169, 114175, 114180, 114182, 114257)

40. WIPING CLOTHS: PROPERLY USED AND STORED

POINTS

1

Inspector Comments:

Observed soiled, damp multi-use wiping cloths stored on the rear prep table. Store wiping cloths fully submerged in an approved sanitizer solution (e.g., 100 ppm chlorine or 200 ppm quaternary ammonium) between uses, or provide a clean cloth for each use. Do not line with any materials which are not easily cleanable. If desired, replace these unacceptable materials with durable, smooth, non-absorbent material that is easily cleanable.

**Violation Description:** Wiping cloths used to clean food spills shall be used only once, unless stored in an approved concentration of sanitizer solution and laundered daily. (114135, 114185.1, 114185.3(d-e))

44. PREMISES; PERSONAL ITEM STORAGE AND CLEANING ITEM STORAGE

POINTS

1

Inspector Comments:

Observed a soiled employee apron stored hanging on the side of the dry storage shelving, in contact with packaged foods and food containers. Discontinue storing personal food/belongings mixed with facility food/equipment. Only store in a designated employee area away from facility food and equipment preparation, washing, or storage areas. PIC relocated the apron to the soiled linen basket and advised a hook will be installed in an approved location for sanitary storage of aprons when not in use.

**Violation Description:** Lockers or another approved area for personal belongings shall be provided. The premises of each food facility shall be kept clean and free of litter and items that are unnecessary to the operation or maintenance of the facility. At least one janitorial sink with hot and cold running water shall be provided. Cleaning supplies and equipment shall be stored separate from food and food-related areas. Mops shall be stored in such a way that allows air-drying. (114123, 114256, 114256.1, 114256.2, 114256.4, 114257.1, 114279, 114281, 114282)

-------------------------------------	-------------------	-----------------------

**56. COVID 19 - FOLLOWING STATE OF CALIFORNIA GUIDELINES**

POINTS

0

**Inspector Comments:**

Observed in compliance with Industry Guidance.

**Overall Inspection Comments**

A follow up inspection was conducted to verify the continued compliance and correction of violations observed during the routine inspection and downgrade on 05/04/2021. Suspension/revocation hearing was held on 05/12/2021, at which time the facility did not send a representative to the hearing and forfeited their right to show cause as to why the permit should not be revoked or suspended. Notice of Decision reviewed and signed by operator and facility is now on Probationary Status. At this time, all violations from the previous inspection report have been corrected except for those listed above. The "B" card was removed and an "A" card was posted. Refer to routine inspection report for all violations noted on 05/04/2021.

NOTE: Warewashing procedures (violation 14) were unable to be verified this date as active warewashing was not in progress. PIC was able to verbally provide correct warewashing procedures. Follow up to occur at next routine inspection or upon receipt of complaint.

**Did you know** that effective January 1, 2018, the California Health and Safety Code was amended to make it easier for food facilities to donate food? Please consider donating your excess food product to a local food bank, pantry, or soup kitchen. As a good faith food donor, you are protected from civil and criminal liability if the food product later causes harm to its recipient, unless the injury is a direct result of gross negligence or intentional misconduct in the preparation or handling of the donated food. See Section 171425 of the Civil Code and Sections 114432 to 114434 inclusive of the Health and Safety Code. For more information visit our website at [www.rivcoeh.org](http://www.rivcoeh.org).

## REASONS FOR IMMEDIATE CLOSURE OF A FOOD FACILITY

Per California Health and Safety Code Section 114409 (a):

"If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

A food facility may be closed for any of the following reasons:

- Overflowing sewage (inside or outside the facility)
- No potable water
- No hot water
- No electricity
- Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, Per California Health and Safety Code Section 114411:

"The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

No foil or cardboard  
on shelves!

## PROPER FOOD STORAGE IN REFRIGERATORS AND FREEZERS

Ready-to-Eat  
Food

Cooked  
Food

Raw Meat,  
Raw Eggs

Store cooked and ready-to-eat food above raw food to avoid cross-contamination.  
Keep all food covered to prevent contamination

## MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A THREE COMPARTMENT SINK

1. **SCRAPE**, clean, or soak items as necessary before washing.
2. **WASH** items in detergent and hot water of at least 100°F in the first sink.
3. **RINSE** items in clear water in the second sink.
4. **SANITIZE** by submerging each item in a sanitizing solution in the third sink. Use one of the following sanitizing methods:
  - 100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
  - 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
  - 25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
  - Water at a temperature of 171°F for a minimum of 30 seconds in solution
5. **AIR DRY** all items on the drain board.

## PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapidly cooled.

### TIME IS THE KEY FACTOR IN PROPER COOLING

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper timeframes.

## PROPER FOOD THAWING METHODS

1. Under refrigeration
2. In a microwave oven on "defrost"
3. Submerged under cold running water in an approved preparation sink for no longer than 2 hours
4. As part of the cooking process

## INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

<b>135°F</b> for 15 seconds	<b>145°F</b> for 15 seconds	<b>145°F</b> for 15 seconds	<b>145°F</b> for 15 seconds	<b>155°F</b> for 15 seconds	<b>155°F</b> for 15 seconds	<b>165°F</b> for 15 seconds	<b>165°F</b> for 15 seconds

Food temperature cannot be felt - use your probe thermometer!
