FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME Everbowl				DATE 8/3/2022	TIME IN 1:10 PM	TIME OUT 2:15 PM
ADDRESS 32483 Temecula Pkwy #E111, Temecula, CA 92592				FACILITY DESCRIPTION Not Applicable		
PERMIT HOLDER Jeff Fenster				EMAIL jeff@everbowl.com brian@ev		Major Violations 0
PERMIT # PR0074770	EXPIRATION DATE 03/31/2023	SERVICE Follow-up inspection	REINSPECTION DATE Next Routine	FACILITY PHONE # (951)302-1500	PE 2620	DISTRICT 0041
				INSPECTOR NAME LUAN LE	Points Deducted 0	

The conditions listed below correspond to violations of the California Health and Safety Code and/or Riverside County Ordinances and must be corrected as indicated by the enforcement officer. The Department of Environmental Health appreciates your cooperation.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge determined by Riverside County Ordinance 640.

Major / Minor Violations: Major Violations are those that pose an imminent risk to public health and warrant immediate closure of the food facility or immediate correction. Minor Violations are those violations that do not pose an imminent public health risk, but do warrant correction.

GRADE REPRESENTS THE FOLLOWING RANGES: A = 100-90 Passed inspection / meets minimum health standards. B = 89-80 Did not pass inspection / does not meet minimum health standards. C = 79-0 Failed inspection / conditions exist which may pose a potential or actual threat to public health and safety. The facility is required to display a grade card in a conspicuous place selected by the Enforcement Officer. The grade card shall not be concealed and can only be removed or relocated by the Enforcement Officer per County Ordinance 492 / County Code Section 8.40.020

○ In = In compliance + COS = Corrected on-site ○ N/O = Not observed ○ N/A = Not applicable ○ OUT = Out of compliance

FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME Everbowl	DATE 8/3/2022	PERMIT # PR0074770
---------------------------	------------------	-----------------------

35. WAREWASHING; INSTALLED, MAINTAINED. PROPER USE, TEST MATERIALS

POINTS

0

Inspector Comments: Note:

- Observed chlorine sanitizer solution in the facility. Chlorine test strips have been ordered and facility is waiting for shipment. Sample chlorine test strip given to manager, Caylee.

Violation Description: Food facilities that prepare food shall have approved warewashing equipment. Testing equipment and materials shall be provided to measure the wash water temperature and applicable sanitization method. (114067(g), 114099, 114099.3, 114099.5, 114101(a), 114101.1, 114101.2, 114103, 114107, 114125)

Overall Inspection Comments

This re-inspection was conducted due to the downgrade and closure of the facility on 7/15/2022.

- Main air conditioner has been properly repair with ambient temperature inside the facility measured at 73°F - 75°F with thermostat reading at 74°F.
- Open Turbo Air display refrigerator in front customer area and 2-door cold prep refrigeration in back room have been properly repair with temperatures at 39°F and 35°F, respectively. Impound tags for both refrigeration units removed. Units are approved to operate.

** At this time all violations from the previous inspection report have been corrected except for the violations noted in this report. Facility close sign and "B" placard removed. "A" placard posted and facility is approved to re-open.

Did you know that effective January 1, 2018, the California Health and Safety Code was amended to make it easier for food facilities to donate food? Please consider donating your excess food product to a local food bank, pantry, or soup kitchen. As a good faith food donor, you are protected from civil and criminal liability if the food product later causes harm to its recipient, unless the injury is a direct result of gross negligence or intentional misconduct in the preparation or handling of the donated food. See Section 171425 of the Civil Code and Sections 114432 to 114434 inclusive of the Health and Safety Code. For more information visit our website at www.rivcoeh.org.

REASONS FOR IMMEDIATE CLOSURE OF A FOOD FACILITY

Per California Health and Safety Code Section 114409 (a):
 "If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

A food facility may be closed for any of the following reasons:

- Overflowing sewage (inside or outside the facility)
- No potable water
- No hot water
- No electricity
- Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, Per California Health and Safety Code Section 114411:

"The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

No foil or cardboard on shelves!

PROPER FOOD STORAGE IN REFRIGERATORS AND FREEZERS

Ready-to-Eat Food

Cooked Food

Raw Meat, Raw Eggs

Store cooked and ready-to-eat food above raw food to avoid cross-contamination.
 Keep all food covered to prevent contamination

MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A THREE COMPARTMENT SINK

1. **SCRAPE**, clean, or soak items as necessary before washing.
2. **WASH** items in detergent and hot water of at least 100°F in the first sink.
3. **RINSE** items in clear water in the second sink.
4. **SANITIZE** by submerging each item in a sanitizing solution in the third sink. Use one of the following sanitizing methods:
 - 100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
 - 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
 - 25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
 - Water at a temperature of 171°F for a minimum of 30 seconds in solution
5. **AIR DRY** all items on the drain board.

PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapidly cooled.

TIME IS THE KEY FACTOR IN PROPER COOLING

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper timeframes.

PROPER FOOD THAWING METHODS

1. Under refrigeration
2. In a microwave oven on "defrost"
3. Submerged under cold running water in an approved preparation sink for no longer than 2 hours
4. As part of the cooking process

INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

135°F for 15 seconds	145°F for 15 seconds	145°F for 15 seconds	145°F for 15 seconds	155°F for 15 seconds	155°F for 15 seconds	165°F for 15 seconds	165°F for 15 seconds

Food temperature cannot be felt - use your probe thermometer!
