FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME Karas Food DBA Popeyes				DATE 6/9/2020		TIME IN 9:15 AM		TIME OUT 10:50 AM	
ADDRESS 5445 Arlington Ave, Riverside, CA 92504				FACILITY DESCRIPTION Not Applicable					
PERMIT HOLDER Wahid Karas				EMAIL wnkfoods@gmail.com				Major Violations 0	
PERMIT # PR0052874	EXPIRATION DATE 03/31/2021	SERVICE Routine inspection	REINSPECTION DATE Next Routine	FACILITY PHONE # (951)757-5343	PE 3621	DISTRICT 0005	INSPECTOR NAME Allison Hubbard		Points Deducted 8

The conditions listed below correspond to violations of the California Health and Safety Code and/or Riverside County Ordinances and must be corrected as indicated by the enforcement officer. The Department of Environmental Health appreciates your cooperation.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge determined by Riverside County Ordinance 640.

Major / Minor Violations: Major Violations are those that pose an imminent risk to public health and warrant immediate closure of the food facility or immediate correction. Minor Violations are those violations that do not pose an imminent public health risk, but do warrant correction.
GRADE REPRESENTS THE FOLLOWING RANGES: A = 100-90 Passed inspection / meets minimum health standards. B = 89-80 Did not pass inspection / does not meet minimum health standards. C = 79-0 Failed inspection / conditions exist which may pose a potential or actual threat to public health and safety. The facility is required to display a grade card in a conspicuous place selected by the Enforcement Officer. The grade card shall not be concealed and can only be removed or relocated by the Enforcement Officer per County Ordinance 492 / County Code Section 8.40.020

FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME Karas Food DBA Popeyes	DATE 6/9/2020	PERMIT # PR0052874
-----------------------------------------	------------------	-----------------------

5. HANDS CLEAN & PROPERLY WASHED; GLOVES USED PROPERLY

POINTS

2

Inspector Comments: Observed an employee at the fried chicken prep station touching hair, visor, and arms. Then grab a new pair of gloves to put on and continue food preparation. Employee was stopped and instructed to properly wash his hands prior to donning gloves. Ensure all employees are properly washing their hands and properly using gloves at all times.

Violation Description: Employees hands and exposed arms shall be kept clean, with fingernails properly trimmed. Employees are required to properly wash their hands: before handling food, equipment, or utensils; as often as necessary during food preparation, to remove soil and contamination; when switching from working with raw to ready-to-eat food; before putting on gloves and working with food; after touching body parts; after using toilet room; or any time when contamination may occur. Employees shall minimize bare hand and arm contact with non-prepackaged food that is in ready-to-eat form. Whenever gloves are worn, they shall be changed or replaced as often as handwashing is required. Approved hand sanitizer can be used in addition to proper handwashing. (113952, 113953.3, 113953.4, 113961, 113968, 113973)

7. PROPER HOT & COLD HOLDING TEMPERATURES

POINTS

2

Inspector Comments: Measured the internal temperature of raw chicken sitting in a container at the fried chicken prep station at 45F. Operator stated the container is supposed to be on an ice bath and has been sitting out at room temperature for an hour and a half. Operator corrected the violation and placed the chicken on an ice bath. Ensure all potentially hazardous foods are maintained at proper temperatures at all times.

Violation Description: Potentially hazardous food shall be held at or below 41°F / 45°F or at or above 135°F. Potentially hazardous food removed from proper holding temperature during preparation must be returned to proper temperature within 2 hours. Potentially hazardous food shall be received at proper temperature without evidence of temperature abuse. (113996, 113998, 114037)

25. PERSON IN CHARGE PRESENT AND PERFORM DUTIES; DEMONSTRATION OF KNOWLEDGE

POINTS

2

Inspector Comments: An employee at the warewashing station was asked to describe how she washes dishes. She stated that she washes them with soap, rinses, and then dips the items in the sanitizer solution. Employee was educated on how to properly warewash dishes and to leave the items fully submerged in the quaternary ammonia sanitizer solution for at least 60 seconds. Ensure all employees are properly educated and trained in the facility.

Violation Description: A person in charge shall be present at the food facility during all hours of operation. The person in charge and all food employees shall have adequate knowledge and shall be trained in food safety as it relates to their assigned duties. The person in charge shall have adequate knowledge of major food allergens and must provide education to employees. (113945-113945.1, 113947, 113947.1(b)(2), 113984.1, 114075)

34. UTENSILS AND EQUIPMENT APPROVED, GOOD REPAIR

POINTS

1

Inspector Comments: Observed the rack above the prep sink pulling away from the wall and in disrepair. Ensure the rack is repaired and secured to the wall in an approved manner.

Violation Description: All utensils and equipment shall be approved and in good repair. (114130, 114130.1-114130.6, 114132, 114133, 114137, 114175, 114177, 114257)

37. EQUIPMENT, UTENSILS, LINENS: STORAGE AND USE

POINTS

1

Inspector Comments: Observed the ice scoop stored on top of the ice maker in direct contact with the unclean area. Operator stated the ice scoop is supposed to be stored in a separate clean container and corrected on site. Ensure all utensils are properly stored at all times.

Violation Description: Utensils and equipment shall be handled and stored in an approved manner, protected from contamination. All clean and soiled linen shall be properly stored. (114067(h), 114074, 114081, 114083, 114119, 114121, 114143(a-b), 114161, 114172, 114178, 114179, 114185, 114185.2, 114185.3, 114185.4, 114185.5)

-----------------------------------------	------------------	-----------------------

Overall Inspection Comments

This visit was initiated due to a potential foodborne illness complaint CO0074016.

Did you know that effective January 1, 2018, the California Health and Safety Code was amended to make it easier for food facilities to donate food? Please consider donating your excess food product to a local food bank, pantry, or soup kitchen. As a good faith food donor, you are protected from civil and criminal liability if the food product later causes harm to its recipient, unless the injury is a direct result of gross negligence or intentional misconduct in the preparation or handling of the donated food. See Section 171425 of the Civil Code and Sections 114432 to 114434 inclusive of the Health and Safety Code. For more information visit our website at www.rivcoeh.org.

REASONS FOR IMMEDIATE CLOSURE OF A FOOD FACILITY

Per California Health and Safety Code Section 114409 (a):

"If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

A food facility may be closed for any of the following reasons:

- Overflowing sewage (inside or outside the facility)
- No potable water
- No hot water
- No electricity
- Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, Per California Health and Safety Code Section 114411:

"The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

No foil or cardboard on shelves!

PROPER FOOD STORAGE IN REFRIGERATORS AND FREEZERS

Ready-to-Eat Food

Cooked Food

Raw Meat, Raw Eggs

Store cooked and ready-to-eat food above raw food to avoid cross-contamination. Keep all food covered to prevent contamination.

MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A THREE COMPARTMENT SINK

1. **SCRAPE**, clean, or soak items as necessary before washing.
2. **WASH** items in detergent and hot water of at least 100°F in the first sink.
3. **RINSE** items in clear water in the second sink.
4. **SANITIZE** by submerging each item in a sanitizing solution in the third sink. Use one of the following sanitizing methods:
 - 100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
 - 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
 - 25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
 - Water at a temperature of 171°F for a minimum of 30 seconds in solution
5. **AIR DRY** all items on the drain board.

PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapidly cooled.

TIME IS THE KEY FACTOR IN PROPER COOLING

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper timeframes.

PROPER FOOD THAWING METHODS

1. Under refrigeration
2. In a microwave oven on "defrost"
3. Submerged under cold running water in an approved preparation sink for no longer than 2 hours
4. As part of the cooking process

INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

135°F	145°F	145°F	145°F	155°F	155°F	165°F	165°F
for 15 seconds	for 15 seconds	for 15 seconds	for 15 seconds	for 15 seconds	for 15 seconds	for 15 seconds	for 15 seconds

Food temperature cannot be felt - use your probe thermometer!
