FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME KFC K312007				DATE 10/7/2022		TIME IN 1:35 PM		TIME OUT 2:50 PM	
ADDRESS 725 S Palm Canyon Dr, Palm Springs, CA 92264				FACILITY DESCRIPTION Not Applicable					
PERMIT HOLDER RBD California Restaurants Limited				EMAIL accountspayable@rbdcali.com				Major Violations 0	
PERMIT # PR0057869	EXPIRATION DATE 09/30/2022	SERVICE Follow-up inspection	REINSPECTION DATE Next Routine	FACILITY PHONE # (310)820-7720	PE 2621	DISTRICT 0022	INSPECTOR NAME Darrel Balancier	Points Deducted 3	

The conditions listed below correspond to violations of the California Health and Safety Code and/or Riverside County Ordinances and must be corrected as indicated by the enforcement officer. The Department of Environmental Health appreciates your cooperation.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge determined by Riverside County Ordinance 640.

Major / Minor Violations: Major Violations are those that pose an imminent risk to public health and warrant immediate closure of the food facility or immediate correction. Minor Violations are those violations that do not pose an imminent public health risk, but do warrant correction.
GRADE REPRESENTS THE FOLLOWING RANGES: A = 100-90 Passed inspection / meets minimum health standards. B = 89-80 Did not pass inspection / does not meet minimum health standards. C = 79-0 Failed inspection / conditions exist which may pose a potential or actual threat to public health and safety. The facility is required to display a grade card in a conspicuous place selected by the Enforcement Officer. The grade card shall not be concealed and can only be removed or relocated by the Enforcement Officer per County Ordinance 492 / County Code Section 8.40.020

FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME
KFC K312007

DATE
10/7/2022

PERMIT #
PR0057869

21. HOT AND COLD WATER AVAILABLE

POINTS

2

Inspector Comments:

When water at a handwash sink is not readily adjustable at the faucet, the water temperature shall be between 100°F and 108°F.

- At the start of the inspection Inspector measured at the mixing value faucet for the front handsink by the drive-thru hand wash water temperature at 82 F and by the end the temperature was measured at 112F

- Also observed the hand sink by the 3 compartment warewash sink hand wash water temperature at 111F.

Adjust the mixing value water temperature at all hand sinks to ensure it produces hand wash water temperature at 100 F to 108 F.

Violation Description: An adequate, protected, pressurized, potable supply of hot water and cold water shall be provided at all times. Hot water of at least 120°F must be provided for facilities with unpackaged food or packaged potentially hazardous food. Handwashing facilities shall be equipped to provide warm water for at least 15 seconds. (113953(c), 114189, 114192 (a,d), 114192.1, 114195)

36. EQUIPMENT / UTENSILS PROPERLY INSTALLED, CLEAN; ADEQUATE CAPACITY

POINTS

1

Inspector Comments:

All equipment and utensils shall be kept clean and free of an accumulation of dust, dirt, food residue, and other debris.

- Provide detail cleaning on the service lines for the fryers and chute area on the side wall and on the deep fryers exterior back areas.

Violation Description: All utensils and equipment shall be clean and installed in an approved manner. Equipment type and quantity shall be adequate for the operation. (114115, 114130.3, 114139, 114153, 114163, 114165, 114167, 114169, 114175, 114180, 114182, 114257)

Overall Inspection Comments

Re-inspection conducted in order to verify that violations that resulted in the facility being closed and downgraded have been corrected.

The above following violations still require to addressed and or corrected.

"A" card reposted.

Did you know that effective January 1, 2018, the California Health and Safety Code was amended to make it easier for food facilities to donate food? Please consider donating your excess food product to a local food bank, pantry, or soup kitchen. As a good faith food donor, you are protected from civil and criminal liability if the food product later causes harm to its recipient, unless the injury is a direct result of gross negligence or intentional misconduct in the preparation or handling of the donated food. See Section 171425 of the Civil Code and Sections 114432 to 114434 inclusive of the Health and Safety Code. For more information visit our website at www.rivcoeh.org.

REASONS FOR IMMEDIATE CLOSURE OF A FOOD FACILITY

Per California Health and Safety Code Section 114409 (a):

"If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

A food facility may be closed for any of the following reasons:

- Overflowing sewage (inside or outside the facility)
- No potable water
- No hot water
- No electricity
- Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, Per California Health and Safety Code Section 114411:

"The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

No foil or cardboard
on shelves!

PROPER FOOD STORAGE IN REFRIGERATORS AND FREEZERS

Ready-to-Eat
Food

Cooked
Food

Raw Meat,
Raw Eggs

Store cooked and ready-to-eat food above raw food to avoid cross-contamination.
Keep all food covered to prevent contamination

MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A THREE COMPARTMENT SINK

1. **SCRAPE**, clean, or soak items as necessary before washing.
2. **WASH** items in detergent and hot water of at least 100°F in the first sink.
3. **RINSE** items in clear water in the second sink.
4. **SANITIZE** by submerging each item in a sanitizing solution in the third sink. Use one of the following sanitizing methods:
 - 100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
 - 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
 - 25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
 - Water at a temperature of 171°F for a minimum of 30 seconds in solution
5. **AIR DRY** all items on the drain board.

PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapidly cooled.

TIME IS THE KEY FACTOR IN PROPER COOLING

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper timeframes.

PROPER FOOD THAWING METHODS

1. Under refrigeration
2. In a microwave oven on "defrost"
3. Submerged under cold running water in an approved preparation sink for no longer than 2 hours
4. As part of the cooking process

INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

135°F for 15 seconds	145°F for 15 seconds	145°F for 15 seconds	145°F for 15 seconds	155°F for 15 seconds	155°F for 15 seconds	165°F for 15 seconds	165°F for 15 seconds

Food temperature cannot be felt - use your probe thermometer!
