Inspector Observations:

21. HOT AND COLD WATER AVAILABLE

Violation Description: An adequate, protected, pressurized, potable supply of hot water and cold water shall be provided at all times. Hot water of at least 120°F must be provided for facilities with unpackaged food or packaged potentially hazardous food. Handwashing facilities shall be equipped to provide warm water for at least 15 seconds. (113953(c), 114189, 114192 (a,d), 114192.1, 114195)

Overall Inspection Comments

At this time this food facility was voluntarily closed due to no hot water with a minimum temperature of 100F at the facility. Measured the water at the 3 compartment warewash sink to be 58.8F and 58.6F at the handwash sink. Person in charge stated that the water heater is currently not working. The "A" letter grade has been removed and a "Facility Closed" sign has been posted on the main entrance door. The food facility shall not operate. Contact T. Sultan at 760-320-1048 for a re-inspection when the water heater is repaired and provides hot water of at least 120F at the 3 compartment warewash sink and 100F at the handwash sink. A routine inspection was not conducted due to the food facility closure.
