PR0063434	11/30/2022	Routine inspection	2/13/2022	(951)685-0932	3620	0056	Jason Roy		Points De	ducted	20

The conditions listed below correspond to violations of the California Health and Safety Code and/or Riverside County Ordinances and must be corrected as indicated by the enforcement officer. The Department of Environmental Health appreciates your cooperation.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge determined by Riverside County Ordinance 640.

Major / Minor Violations: Major Violations are those that pose an imminent risk to public health and warrant immediate closure of the food facility or immediate correction. Minor Violations are those violations that do not pose an imminent public health risk, but do warrant correction. GRADE REPRESENTS THE FOLLOWING RANGES: A = 100-90 Passed inspection / meets minimum health standards. B = 89-80 Did not pass inspection / does not meet minimum health standards. C = 79-0 Failed inspection / conditions exist which may pose a potential or actual threat to public health and safety. The facility is required to display a grade card in a conspicuous place selected by the Enforcement Officer. The grade card shall not be concealed and can only be removed or relocated by the Enforcement Officer per County Ordinance 492 / County Code Section 8.40.020

#### FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME		PERMIT#
Lucky Wok Chinese Food	10/13/2021	PR0063434

#### 7. PROPER HOT & COLD HOLDING TEMPERATURES

4

**Inspector Comments:** Sweet and Sour Pork was in a metal tray on top of the reach in refrigerator and was measured at an internal temperature of 56F. Also, raw shell eggs were in a tray on the food preparation table and were measured at an internal temperature of 58F. Both food items were discarded. All potentially hazardous foods must be maintained under temperature control at 41F or below for cold holding and 135F or above for hot holding. Instruction provided.

**Violation Description:** Potentially hazardous food shall be held at or below 41°F / 45°F or at or above 135°F. Potentially hazardous food removed from proper holding temperature during preparation must be returned to proper temperature within 2 hours. Potentially hazardous food shall be received at proper temperature without evidence of temperature abuse. (113996, 113998, 114037)

#### 14. FOOD CONTACT SURFACES; CLEAN AND SANITIZED

**△** CRITICAL **△** 

**POINTS** 

POINTS

**Inspector Comments:** All stored utensils on shelf above 3 compartment sink must be washed, rinsed, and sanitized as cockroaches were in contact with these items. Instruction provided.

**Violation Description:** All food contact surfaces of utensils and equipment shall be properly cleaned and sanitized. Food contact surfaces shall be clean to the sight and touch, no accumulation of dust, dirt, food residue, and other debris. (114097, 114099.1, 114099.2, 114099.4, 114099.6, 114099.7, 114101(b-d), 114105, 114109, 114111, 114113, 114115, 114117, 114118, 114123, 114125(b), 114130.2, 114130.5, 114141)

#### 23. NO RODENTS, INSECTS, BIRDS, OR ANIMALS

**POINTS** 

4

Inspector Comments: Facility has a cockroach infestation throughout facility(kitchen and customer seating area). All life stages observed. Rodent activity also noted in back dry storage room where numerous rodent droppings were observed. Take all necessary steps to eliminate both cockroaches and rodents from facility. Contact commercial pest control provider and initiate comprehensive elimination program. Service receipts must be provided and monthly service contract signed. Facility currently does not have pest control service. Remove rodent droppings in safe manner.

Violation Description: Each food facility shall be kept free of vermin. Only approved animals, such as service animals or decorative fish in aquariums, are permitted inside a food facility. (114259.1, 114259.4, 114259.5)

#### 24. VERMIN PROOFING, AIR CURTAINS, SELF-CLOSING DOORS

**POINTS** 

**Inspector Comments:** Take all necessary steps to seal entry points into facility(rodents) and eliminate all potential breeding areas for cockroaches. Instruction given.

Violation Description: Each food facility shall be constructed, equipped, maintained, and operated to prevent the entrance and harborage of animals, including birds and vermin. (114259, 114259.2, 114259.3)

#### 28. FOOD SEPARATED AND PROTECTED FROM CONTAMINATION

POINTS

Inspector Comments: Clean ice maker deflector plate(mold)

2

Violation Description: All food shall be separated and protected from contamination. (113984, 113986, 114060, 114067(a, d, e), 114069(a, d), 114073, 114077, 114089.1(c), 114143(c))

#### 36. EQUIPMENT / UTENSILS PROPERLY INSTALLED, CLEAN; ADEQUATE CAPACITY

**POINTS** 

**Inspector Comments:** Remove all excess storage from facility to aid in cleaning and to eliminate pest nesting and hiding area. All unused utensils and equipment are to be removed. Instruction given. Also, clean all equipment at cook line and underneath sinks and food preparation tables. Tables are to be turned over and their underside cleaned as food and debris have built up in these area.

Violation Description: All utensils and equipment shall be clean and installed in an approved manner. Equipment type and quantity shall be adequate for the operation.(114115, 114130.3, 114139, 114153, 114163, 114165, 114167, 114169, 114175, 114180, 114182, 114257)

#### 37. EQUIPMENT, UTENSILS, LINENS: STORAGE AND USE

POINTS

Inspector Comments: Do not use mop sink as a storage area for cleaning supplies. Mop sink is to remain unobstructed at all times.

Violation Description: Utensils and equipment shall be handled and stored in an approved manner, protected from contamination. All clean and soiled linen shall be properly stored. (114067(h), 114074, 114081, 114083, 114119, 114121, 114143(a-b), 114161, 114172, 114178, 114179, 114185, 114185.2, 114185.3, 114185.4, 114185.5)

#### **40. WIPING CLOTHS: PROPERLY USED AND STORED**

**POINTS** 

**Inspector Comments:** Store all soiled linens in buckets with approved sanitizer and required concentration and not on food preparation tables.

#### 44. PREMISES; PERSONAL ITEM STORAGE AND CLEANING ITEM STORAGE

**POINTS** 

**Inspector Comments:** Relocate personals(aprons) from food/utensil storage shelving and from on top of food preparation areas. Also, hang wet mop to facilitate air drying. Instruction provided.

**Violation Description:** Lockers or another approved area for personal belongings shall be provided. The premises of each food facility shall be kept clean and free of litter and items that are unnecessary to the operation or maintenance of the facility. At least one janitorial sink with hot and cold running water shall be provided. Cleaning supplies and equipment shall be stored separate from food and food-related areas. Mops shall be stored in such a way that allows air-drying. (114123, 114256, 114256.1, 114256.2, 114256.4, 114279, 114281, 114282)

#### 46. FLOORS, WALLS, AND CEILINGS: CLEAN

POINTS

**Inspector Comments:** Clean floors throughout facility including beneath all equipment and shelving. Food debris and grease have built up in these areas.

Violation Description: Floors, walls, and ceilings shall be maintained clean. (114257, 114268.1)

#### **Overall Inspection Comments**

This facility has failed to meet the minimum standards established by the Health and Safety Code. "A" card removed, "B" card posted. Facility is also closed due to cockroach infestation and rodent activity. Facility will not be allowed to reopen until all cockroaches and rodents are eliminated and monthly pest control is established. Facility closed sign posted and is not to be removed until permission is granted by this department. Graded re-inspection is to be determined.

**Did you know** that effective January 1, 2018, the California Health and Safety Code was amended to make it easier for food facilities to donate food? Please consider donating your excess food product to a local food bank, pantry, or soup kitchen. As a good faith food donor, you are protected from civil and criminal liability if the food product later causes harm to its recipient, unless the injury is a direct result of gross negligence or intentional misconduct in the preparation or handling of the donated food. See Section 171425 of the Civil Code and Sections 114432 to 114434 inclusive of the Health and Safety Code. For more information visit our website at www.rivcoeh.org.

#### REASONS FOR IMMEDIATE CLOSURE OF A FOOD FACILITY

Per California Health and Safety Code Section 114409 (a):

"If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

A food facility may be closed for any of the following reasons:

- · Overflowing sewage (inside or outside the facility)
- · No potable water
- · No hot water
- · No electricity
- · Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, Per California Heath and Safety Code Section 114411:

"The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

Store cooked and ready-to-eat food above raw food to avoid cross-contamination.

Keep all food covered to prevent contamination

### MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A THREE COMPARTMENT SINK

- 1. SCRAPE, clean, or soak items as necessary before washing.
- 2. WASH items in detergent and hot water of at least 100°F in the first sink.
- 3. RINSE items in clear water in the second sink
- 4. SANITIZE by submerging each item in a sanitizing solution in the third sink. Use one of the following sanitizing methods:
  - $\bullet$  100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
  - 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
  - 25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
  - Water at a temperature of 171°F for a minimum of 30 seconds in solution

5. AIR DRY all items on the drain board.

#### PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapodly cooled.

#### TIME IS THE KEY FACTOR IN PROPER COOLING

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- · Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper timeframes

#### PROPER FOOD THAWING METHODS

- Under refrigeration
- In a microwave oven on "defrost"
  - Submerged under cold running water in an approved preparation sink for no longer than 2 hours
  - As part of the cooking process

#### INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

Food temperature cannot be felt - use your probe thermometer!
