FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME WinCo Foods #71					DATE 8/29/2019		TIME IN 2:25 PM		TIME OUT 3:25 PM		
ADDRESS 4602 W Florida Ave, Hemet, CA 92545					FACILITY DESCRIPTION Not Applicable						
PERMIT HOLDER Winco Foods LLC					EMAIL Not Specified					Major Violations 0	
PERMIT # PR0050752	EXPIRATION DATE 10/31/2019	SERVICE Routine inspection	REINSPECTION DATE Next Routine	FACILITY PHONE # (208)377-0110	PE 2612	DISTRICT 0016	INSPECTOR NAME Cristina Irwin		Points Deducted 4		

The conditions listed below correspond to violations of the California Health and Safety Code and/or Riverside County Ordinances and must be corrected as indicated by the enforcement officer. The Department of Environmental Health appreciates your cooperation.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge determined by Riverside County Ordinance 640.

Major / Minor Violations: Major Violations are those that pose an imminent risk to public health and warrant immediate closure of the food facility or immediate correction. Minor Violations are those violations that do not pose an imminent public health risk, but do warrant correction.

GRADE REPRESENTS THE FOLLOWING RANGES: A = 100-90 Passed inspection / meets minimum health standards. B = 89-80 Did not pass inspection / does not meet minimum health standards. C = 79-0 Failed inspection / conditions exist which may pose a potential or actual threat to public health and safety. The facility is required to display a grade card in a conspicuous place selected by the Enforcement Officer. The grade card shall not be concealed and can only be removed or relocated by the Enforcement Officer per County Ordinance 492 / County Code Section 8.40.020

FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME WinCo Foods #71	DATE 8/29/2019	PERMIT # PR0050752
----------------------------------	-------------------	-----------------------

21. HOT AND COLD WATER AVAILABLE

POINTS

2

Inspector Comments:

-Provide hot water at a minimum of 120°F at all times.
-Ensure mixing valves are closed and hot water measures 120 F at the 3 comp sink at all times.
Observed hot water measured 114 F at 3 comp sink (beginning of the inspection). Hot water was restored to 120 F by the end of the inspection by turning off the mixing valves.

Violation Description: An adequate, protected, pressurized, potable supply of hot water and cold water shall be provided at all times. Hot water of at least 120°F must be provided for facilities with unpackaged food or packaged potentially hazardous food. Handwashing facilities shall be equipped to provide warm water for at least 15 seconds. (113953(c), 114189, 114192 (a,d), 114192.1, 114195)

27. APPROVED THAWING METHODS USED, FROZEN FOOD STORAGE

POINTS

1

Inspector Comments:

-Food shall be thawed by one of the following methods: under refrigeration; completely submerged under cool running water of sufficient velocity to flush loose particles; in microwave oven; during the cooking process.
-Ensure water is running when thawing fish inside the food prep sink.
Observed fish thawing inside the food prep sink with the water off.

Violation Description: Food shall be thawed in an approved manner: under refrigeration, completely submerged under cool running water of sufficient velocity to flush loose particles, in microwave oven, during the cooking process. (114018, 114020)

31. ADEQUATE FOOD STORAGE; FOOD STORAGE CONTAINERS IDENTIFIED

POINTS

1

Inspector Comments:

-Food containers shall be labeled as to the contents.
-Properly label food containers with contents.
Observed food container of seasoning (between chili/ lime and lemon pepper seasonings) missing label at the Seafood Department.

Violation Description: Food shall be stored in approved containers and labeled as to contents. Food shall be stored at least 6" above the floor on approved shelving. (114047, 114049, 114051, 114053, 114055, 114067(h), 114069(b))

Overall Inspection Comments

Market

Did you know that effective January 1, 2018, the California Health and Safety Code was amended to make it easier for food facilities to donate food? Please consider donating your excess food product to a local food bank, pantry, or soup kitchen. As a good faith food donor, you are protected from civil and criminal liability if the food product later causes harm to its recipient, unless the injury is a direct result of gross negligence or intentional misconduct in the preparation or handling of the donated food. See Section 171425 of the Civil Code and Sections 114432 to 114434 inclusive of the Health and Safety Code. For more information visit our website at www.rivcoeh.org.

REASONS FOR IMMEDIATE CLOSURE OF A FOOD FACILITY

Per California Health and Safety Code Section 114409 (a):

"If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

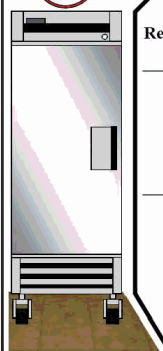

A food facility may be closed for any of the following reasons:

- Overflowing sewage (inside or outside the facility)
- No potable water
- No hot water
- No electricity
- Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, Per California Health and Safety Code Section 114411:

"The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

No foil or cardboard on shelves!

PROPER FOOD STORAGE IN REFRIGERATORS AND FREEZERS

Ready-to-Eat Food

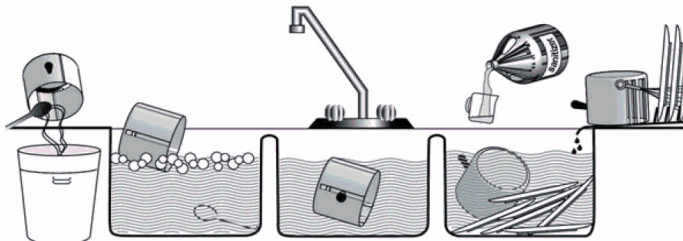

Cooked Food

Raw Meat, Raw Eggs

Store cooked and ready-to-eat food above raw food to avoid cross-contamination. Keep all food covered to prevent contamination.

MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A THREE COMPARTMENT SINK

1. **SCRAPE**, clean, or soak items as necessary before washing.
2. **WASH** items in detergent and hot water of at least 100°F in the first sink.
3. **RINSE** items in clear water in the second sink.
4. **SANITIZE** by submerging each item in a sanitizing solution in the third sink. Use one of the following sanitizing methods:
 - 100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
 - 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
 - 25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
 - Water at a temperature of 171°F for a minimum of 30 seconds in solution
5. **AIR DRY** all items on the drain board.

PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapidly cooled.

TIME IS THE KEY FACTOR IN PROPER COOLING

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper timeframes.

PROPER FOOD THAWING METHODS

1. Under refrigeration
2. In a microwave oven on "defrost"
3. Submerged under cold running water in an approved preparation sink for no longer than 2 hours
4. As part of the cooking process

INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

135°F	145°F	145°F	145°F	155°F	155°F	165°F	165°F
for 15 seconds	for 15 seconds	for 15 seconds	for 15 seconds	for 15 seconds	for 15 seconds	for 15 seconds	for 15 seconds

Food temperature cannot be felt - use your probe thermometer!
