The conditions listed below correspond to violations of the California Health and Safety Code and/or Riverside County Ordinances and must be corrected as indicated by the enforcement officer. The Department of Environmental Health appreciates your cooperation.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge determined by Riverside County Ordinance 640.

Major / Minor Violations: Major Violations are those that pose an imminent risk to public health and warrant immediate closure of the food facility or immediate correction. Minor Violations are those violations that do not pose an imminent public health risk, but do warrant correction. GRADE REPRESENTS THE FOLLOWING RANGES: A = 100-90 Passed inspection / meets minimum health standards. B = 89-80 Did not pass inspection / does not meet minimum health standards. C = 79-0 Failed inspection / conditions exist which may pose a potential or actual threat to public health and safety. The facility is required to display a grade card in a conspicuous place selected by the Enforcement Officer. The grade card shall not be concealed and can only be removed or relocated by the Enforcement Officer per County Ordinance 492 / County Code Section 8.40.020

In = In compliance

COS = Corrected on-site

N/O = Not observed

N/A = Not applicable

OUT = Out of compliance

# County of Riverside DEPARTMENT OF ENVIRONMENTAL HEALTH

#### www.rivcoeh.org

#### FOOD ESTABLISHMENT INSPECTION FORM

		PERMIT #
DOMINO'S PIZZA	1/18/2022	PR0005049

#### 1. FOOD SAFETY CERTIFICATION

POINTS

**Inspector Comments:** Food facilities that prepare, handle or serve unpackaged potentially hazardous food, shall have an employee who has passed an approved food safety certification examination.

Food manager certificate was observed to be invalid. Obtain a valid food manager certificate by the next routine inspection.

**Violation Description:** Food facilities that prepare, handle or serve non-prepackaged potentially hazardous food, shall have an employee who has passed an approved food safety certification examination. Food safety certificate must be maintained at the food facility and made available for inspection. (113947.1 - 113947.5)

#### 6. ADEQUATE HANDWASHING FACILITIES SUPPLIED & ACCESSIBLE

**POINTS** 

Inspector Comments: Maintain soap and paper towels in approved dispensers at all hand wash stations.

2

Paper towels were observed to be stored on top of the main prep table near the hand wash station. Install a paper towel dispenser near the hand wash station and ensure paper towels are stored in the dispenser to prevent cross contamination.

**Violation Description:** Adequate facilities exclusively for handwashing shall be provided in food preparation areas and within toilet rooms. Handwashing soap, and towels or drying device, shall be provided in dispensers. Handwashing facilities shall be clean, unobstructed, and accessible at all times for employee use. (113953, 113953.1, 113953.2, 114067(f), 114143 (e))

#### 49. FOOD HANDLER CERTIFICATIONS AVAILABLE, CURRENT, COMPLETE

POINTS

**Inspector Comments:** All employees who handle food, utensils, or food equipment shall have a valid Riverside County Food Handler Certificate within one week of commencing work.

One food handler card was observed to be expired. Obtain a valid Riverside County Food handler Card within one week.

Violation Description: County of Riverside Environmental Health Food Handler Certification(s) are available and current for all employees who prepare, store, or serve exposed food. (Riverside County Ordinance 567)

#### **Overall Inspection Comments**

A follow up investigation for complaint (CO0091790) along with routine inspection was conducted.

- The water heater was observed to be service in an approved manner
- Water temperature measured at 135F throughout the facility
- Closed sign removed
- Facility is permitted to operate

**Did you know** that effective January 1, 2018, the California Health and Safety Code was amended to make it easier for food facilities to donate food? Please consider donating your excess food product to a local food bank, pantry, or soup kitchen. As a good faith food donor, you are protected from civil and criminal liability if the food product later causes harm to its recipient, unless the injury is a direct result of gross negligence or intentional misconduct in the preparation or handling of the donated food. See Section 171425 of the Civil Code and Sections 114432 to 114434 inclusive of the Health and Safety Code. For more information visit our website at www.rivcoeh.org.

#### REASONS FOR IMMEDIATE CLOSURE OF A FOOD FACILITY

Per California Health and Safety Code Section 114409 (a):

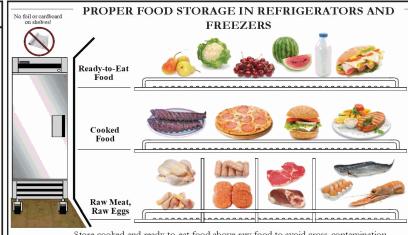

"If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

A food facility may be closed for any of the following reasons:

- · Overflowing sewage (inside or outside the facility)
- · No potable water
- · No hot water
- · No electricity
- · Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, Per California Heath and Safety Code Section 114411:

"The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

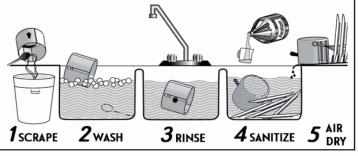

Store cooked and ready-to-eat food above raw food to avoid cross-contamination.

Keep all food covered to prevent contamination

## MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A THREE COMPARTMENT SINK

- 1. SCRAPE, clean, or soak items as necessary before washing.
- 2. WASH items in detergent and hot water of at least 100°F in the first sink.
- 3. RINSE items in clear water in the second sink
- 4. SANITIZE by submerging each item in a sanitizing solution in the third sink. Use one of the following sanitizing methods:
  - $\bullet$  100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
  - 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
  - $\bullet$  25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
  - Water at a temperature of 171°F for a minimum of 30 seconds in solution

#### 5. AIR DRY all items on the drain board.

#### PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapodly cooled.

#### TIME IS THE KEY FACTOR IN PROPER COOLING

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- · Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper timeframes

#### PROPER FOOD THAWING METHODS

- Under refrigeration
- 2. In a microwave oven on "defrost"
  - Submerged under cold running water in an approved preparation sink for no longer than 2 hours
  - As part of the cooking process

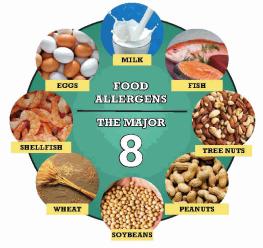

#### INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

Food temperature cannot be felt - use your probe thermometer!
