FOOD ESTABLISHMENT INSPECTION FORM

FACILITY NAME Los Victor Mexican Food				DATE 12/2/2019		TIME IN 10:00 AM		TIME OUT 11:00 AM	
ADDRESS 1987 W Ramsey St, Banning, CA 92220				FACILITY DESCRIPTION Not Applicable					
PERMIT HOLDER Rocio Valenciano				EMAIL valencianorocio122				Major Violations 0	
PERMIT # PR0068902	EXPIRATION DATE 02/28/2020	SERVICE Follow-up inspection	REINSPECTION DATE Next Routine	FACILITY PHONE # (951)849-0171	PE 3620	DISTRICT 0012	INSPECTOR NAME Beatriz Cornejo	Points Deducted 5	

The conditions listed below correspond to violations of the California Health and Safety Code and/or Riverside County Ordinances and must be corrected as indicated by the enforcement officer. The Department of Environmental Health appreciates your cooperation.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge determined by Riverside County Ordinance 640.

Major / Minor Violations: Major Violations are those that pose an imminent risk to public health and warrant immediate closure of the food facility or immediate correction. Minor Violations are those violations that do not pose an imminent public health risk, but do warrant correction.

GRADE REPRESENTS THE FOLLOWING RANGES: A = 100-90 Passed inspection / meets minimum health standards. B = 89-80 Did not pass inspection / does not meet minimum health standards. C = 79-0 Failed inspection / conditions exist which may pose a potential or actual threat to public health and safety. The facility is required to display a grade card in a conspicuous place selected by the Enforcement Officer. The grade card shall not be concealed and can only be removed or relocated by the Enforcement Officer per County Ordinance 492 / County Code Section 8.40.020

FACILITY NAME Los Victor Mexican Food	DATE 12/2/2019	PERMIT # PR0068902
---	--------------------------	------------------------------

36. EQUIPMENT / UTENSILS PROPERLY INSTALLED, CLEAN; ADEQUATE CAPACITY

POINTS

1

Inspector Comments: All equipment and utensils shall be kept clean and free of an accumulation of dust, dirt, food residue, and other debris. Clean and maintain the following:

1. Heavy debris/grease on top, below, behind, and in between single burner ranges, flat grill, and deep fryer.

Violation Description: All utensils and equipment shall be clean and installed in an approved manner. Equipment type and quantity shall be adequate for the operation. (114115, 114130.3, 114139, 114153, 114163, 114165, 114167, 114169, 114175, 114180, 114182, 114257)

45. FLOORS, WALLS, CEILING: GOOD REPAIR / FULLY ENCLOSED

POINTS

1

Inspector Comments: The floors, walls, ceilings of a food facility shall be an approved type, have durable, smooth, nonabsorbent, and washable surfaces, and shall be maintained in good repair. Observed dilapidated attached outdoor storage area; door and door frame observed on the floor exposing further vermin harborage areas. Facility must repair storage area to further vermin exclude by 12/9/19.

Violation Description: The floors, walls, ceilings finishes must be of an approved material, durable, smooth, nonabsorbent, and easily cleanable. Food facilities shall be fully enclosed. (114143 (d), 114257, 114266, 114268, 114271, 114272)

49. FOOD HANDLER CERTIFICATIONS AVAILABLE, CURRENT, COMPLETE

POINTS

1

Inspector Comments: All employees who handle food, utensils, or food equipment shall have a valid Riverside County Food Handler Certificate within one week of commencing work. Facility observed missing Riverside County Food Handler cards. Per Administrative Hearing, ensure all employees have completed approved Riverside County Food Handlers by no later than 12/3/19.

Violation Description: County of Riverside Environmental Health Food Handler Certification(s) are available and current for all employees who prepare, store, or serve exposed food. (Riverside County Ordinance 567)

--	-------------------	-----------------------

Overall Inspection Comments

Re-inspection conducted per facility's request following the facility closure and failed routine inspection on 11/26/19. An Administrative Hearing conducted at facility on 11/27/19; facility remained closed due to continued cockroach activity on that date. Joint re-inspection conducted today, 12/2/19, by J. Roy and B. Cornejo. Facility is approved to re-open. Per person in charge, three pest control treatments were conducted since 11/26/19 by Pest Assassin Pest Control Company. During re-inspection, no cockroach activity observed to be fully eradicated. Person in charge stated all areas were cleaned and sanitized. Improved pest control exclusion completed. Facility closure sign removed.

This re-inspection was conducted at operator request due to the downgrade of the facility on 11-26-19. At this time, all violations from the previous inspection report have been corrected except for the violations listed above. C placard removed, A placard posted. Correct all remaining violations to prevent illness or injury.

Did you know that effective January 1, 2018, the California Health and Safety Code was amended to make it easier for food facilities to donate food? Please consider donating your excess food product to a local food bank, pantry, or soup kitchen. As a good faith food donor, you are protected from civil and criminal liability if the food product later causes harm to its recipient, unless the injury is a direct result of gross negligence or intentional misconduct in the preparation or handling of the donated food. See Section 171425 of the Civil Code and Sections 114432 to 114434 inclusive of the Health and Safety Code. For more information visit our website at www.rivcoeh.org.

REASONS FOR IMMEDIATE CLOSURE OF A FOOD FACILITY

Per California Health and Safety Code Section 114409 (a):

"If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility immediately closed."

A food facility may be closed for any of the following reasons:

- Overflowing sewage (inside or outside the facility)
- No potable water
- No hot water
- No electricity
- Rodent or insect infestation
- Any other conditions at the facility that may create an imminent public health risk

In addition to the reasons above, Per California Health and Safety Code Section 114411:

"The enforcement agency may, after providing opportunity for a hearing, modify, suspend, or revoke a permit for serious or repeated violations of any requirement of this part or for interference in the performance of the duty of the enforcement officer."

No foil or cardboard on shelves!

PROPER FOOD STORAGE IN REFRIGERATORS AND FREEZERS

Ready-to-Eat Food

Cooked Food

Raw Meat, Raw Eggs

Store cooked and ready-to-eat food above raw food to avoid cross-contamination. Keep all food covered to prevent contamination.

MANUAL SANITIZING OF EQUIPMENT AND UTENSILS USING A THREE COMPARTMENT SINK

1. **SCRAPE**, clean, or soak items as necessary before washing.
2. **WASH** items in detergent and hot water of at least 100°F in the first sink.
3. **RINSE** items in clear water in the second sink.
4. **SANITIZE** by submerging each item in a sanitizing solution in the third sink. Use one of the following sanitizing methods:
 - 100ppm of a chlorine based sanitizer for a minimum of 30 seconds in the solution
 - 200ppm of a quaternary ammonium based sanitizer for a minimum of 60 seconds in the solution
 - 25ppm of an iodine based sanitizer for a minimum of 60 seconds in the solution
 - Water at a temperature of 171°F for a minimum of 30 seconds in solution
5. **AIR DRY** all items on the drain board.

PROPER COOLING OF FOOD IN YOUR FACILITY

Potentially hazardous foods should always be rapidly cooled.

TIME IS THE KEY FACTOR IN PROPER COOLING

- Foods must cool from 135°F to 70°F in 2 hours or less
- Foods must cool from 70°F to 41°F in 4 hours or less

Use one of the following methods to cool food properly:

- Break large foods down into smaller portions and place in shallow pans no more than 4 inches deep. Metal pans cool better than glass or plastic pans.
- Add ice as an ingredient to replace water used in the recipe.
- Place foods within an ice bath and frequently stir the foods to speed the cooling process.
- Loosely cover foods so that heat and steam can escape during cooling.
- Arrange containers within a refrigeration unit so that air can flow properly around containers.
- Use special equipment like chill paddles or blast chillers to rapidly bring down food temperature.

Use an accurate thermometer to verify the food is being cooled within proper timeframes.

PROPER FOOD THAWING METHODS

1. Under refrigeration
2. In a microwave oven on "defrost"
3. Submerged under cold running water in an approved preparation sink for no longer than 2 hours
4. As part of the cooking process

INTERNAL COOKING TEMPERATURES

Use a probe thermometer to take internal cooking temperatures

Food temperature cannot be felt - use your probe thermometer!
